The very high-quality workmanship and the well-thought-out concept make this recessed mailbox one of our top sellers. A rain-drip edge for optimal water protection, a continuous rubber lip for quiet insertion, the sturdy interchangeable nameplate, a practical mail retention bar and the very robust lock characterise this recessed mailbox. The recessed frame made of stainless steel V2A is fitted with a foam-rubber seal and guarantees very high durability.

The mailbox systems of the BASIC Plus collection are characterised by the consistent use of stainless steel V2A. The result is very high longevity and sustainability. The construction has been developed by our own engineers with a view to high flexibility/modularity, easy spare-part installation and straightforward self-assembly.
