Stainless steel door station BASIC 529 Elegance I with bell & speech perforation - RAL of your choice

This simple and at the same time elegant doorbell plate fits seamlessly into the house facade. The door station is made of 2mm stainless steel V2A and the front panel is powder coated in your desired color. A doorbell with LED ring lighting in white color and a speech hole for built-in speakers are included. Our products have high value, reliable functionality and their own identity. Made by Mailbox Manufacture.

- Door station made of 2 mm stainless steel V2A 1.4301, powder coated in RAL fine structure matt.
- Front panel powder-coated in RAL color of your choice.
- Installation box made of 2 mm stainless steel V2A 1.4301, 240 grain ground.
- Dimension of bell plate W 210 mm x H 350 mm.
- The body has the dimensions: W 180 mm x H 320 mm x D 60 mm.
- Incl. 4x screws cover caps made of stainless steel V2A, ground, so that the screws for fixing the front panel are not visible. See pictures.
- With speaking hole incl. metal gauze and universal adapter. Universal adapter is suitable for all commercially available built-in speakers (Siedle, Ritto, TCS, Busch-Jäger, Gira, Legrand Bticino, ELCOM, Auerswald, Comelit and many more).
- 8-12V DC short stroke bell push button with LED ring illumination white. The illumination of the bell push buttons cannot be supplied by the control unit. It must be connected to an additional power supply 8-12 V DC.
- Optionally for flush mounting or surface mounting.

Important information

Camera or intercom preparation

Intercom systems must be connected by an electrician. Contact your trusted electrician for planning, mounting and installation.

Water protection

For optimum water protection, the door station should be located under a canopy if possible.
