Product number 215-UP-7-SP-DB-100-L

Product description

7-compartment flush-mounted mailbox GOETHE UP - RAL colour of your choice - DoorBird video intercom on left

High-quality 7-compartment flush-mounted mailbox with a seamlessly integrated DoorBird IP video door station D2100E in a flush-fit design. The DoorBird IP video door station D2100E is the smart solution for your entrance. The IP video door station can be operated as a standalone unit or integrated into an existing smart-home platform. Existing classic installations such as a door chime or an electric door/gate opener can continue to be used with DoorBird and be controlled via the app.

The dimensions of the individual mailbox provide a capacity of approx. 16 or 32 litres; the large letter slot ensures that DIN C4 envelopes and magazines — or post accumulated during several days' absence — are not creased. The innovative push-key lock is concealed inside the mailbox. The key is simply inserted into the existing opening (no turning required) and the door opens. The position of the lock is designed so that the removal door prevents the post from falling out towards you. With the water-drip edge, the inner post compartment is optimally protected against the weather. The insertion flap is equipped with high-quality axle dampers, ensuring quiet closing and preventing annoying rattling caused by weather.

The mailbox systems of the GOETHE collection are characterised by the consistent use of stainless steel. The result is very high durability and sustainability. The construction has been developed by our own engineers with a focus on high flexibility/modularity, simple spare-part assembly and straightforward self-installation. Spare parts for all GOETHE systems are available directly in our shop.

Thanks to the design, self-installation is uncomplicated.

Protected utility model according to DPMA file number DE: 20 2021 101 679.5

- 7-place flush-mounted mailbox completely made from stainless steel.
- Quality manufacturing - Made in Germany by Briefkasten Manufaktur Lippe.
- Mailbox (W x H 400 x 400 mm) made from stainless steel 1.4016 (non-rusting, magnetic stainless steel), powder-coated in RAL colour of your choice.
- Innovative push-key lock with 2 keys.
- Letters are inserted and removed from the front. Insertion flap with high-quality axle dampers for very quiet posting of mail.
- The mailbox complies with DIN/EN 13724. Insertion size (3.5 cm x 36.0 cm) for C4 landscape; large letters fit in without bending.
- Removal doors open from top to bottom. This prevents the post from falling out towards you.
- Plexiglas nameplate for name labelling and a second nameplate for advertising Yes/No per unit.
- Function box (W x H 400 x 400 mm) made from stainless steel 1.4016 (non-rusting, magnetic stainless steel), powder-coated in RAL colour of your choice.
- Optional house number with energy-saving LED illumination approx. 70–100 mm high possible (depending on the number of characters).
- Plaster cover frame made from 2 mm stainless steel angle profile 25 x 58 mm, powder-coated in RAL colour.
- Includes DoorBird IP video door station D2100E + multi-tenant module MTM18A with illuminated call buttons or IP video door station D3100E with 7-inch display.

Important information

Camera or intercom provision

The intercom systems must be connected by a qualified electrician. Please consult the electrician of your choice for planning, installation and commissioning.

Water protection

To achieve optimal water protection for your post, the mailbox or mailbox system should, where possible, be located under a porch.

Mail is only protected from water if it is placed entirely inside the box and the insertion flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the mailbox. This system is protected against water ingress in accordance with DIN EN 13724. Water ingress is not a reason for complaint.
