24-unit 8x3 stainless steel surface-mounted mailbox system Design BASIC Plus 385XA AP - RAL colour of your choice | 300x110x385 mm (WxHxD) - ?? Normal 12 litres | ? Colour of your choice | with 24 mailboxes

Product number 385XA-24W

Product description

Wide surface-mounted mailbox system BASIC Plus 385XA for 24 households – RAL colour of choice

The BASIC Plus 385XA surface-mounted mailbox system for 24 households is a robust wall-mounted solution for larger apartment buildings, residential complexes and commercial properties. The wider W configuration distributes the mailboxes across a multi-column front and keeps the overall unit lower and more compact.

The BASIC Plus mailbox system is consistently made from stainless steel V2A and is powder-coated in the chosen RAL colour. The modular construction is designed for durability, easy installation and good spare parts availability.

Each compartment measures 300 × 110 × 385 mm (W × H × D) and offers approximately 12 litres of volume. The 35 × 265 mm insertion slot is designed for DIN C4 items in portrait format. The doors open from left to right; each mailbox is provided with two keys with key number and an interchangeable nameplate beneath the insertion flap.

The advantages of the BASIC Plus 385XA surface-mounted system at a glance

Rain canopy and side panels

Rain canopy and side panels unify the individual mailboxes into a closed surface-mounted system. The coordinated cladding ensures a calm front and a neat termination at the façade.

DIN C4 slot and 12 litres volume

The 300 × 110 × 385 mm (W × H × D) compartments each provide approx. 12 litres of volume. The 35 × 265 mm insertion slot also accepts larger DIN C4 items in portrait orientation.

Quiet insertion and secure assignment

The rubber lip damps the insertion flap. Robust locks, two keys with key number and protected interchangeable nameplates ensure clear assignment of the individual mailboxes.

Mounting rail for wall installation

The surface-mounted system is designed for direct façade installation. A mounting rail simplifies fitting; fixings with screws and wall plugs are included in the described configuration.

BASIC Plus in RAL colour of choice

Stainless steel V2A forms the robust basis; the powder coating can be finished in the desired RAL colour to match the façade, front door and window profiles. BASIC Plus additionally stands for consistent V2A use, modular construction and directly available spare parts.

Equipment of the BASIC Plus 385XA mailbox system

Mailbox system

Number of mailboxes 24 individually lockable compartments
Single compartment 300 × 110 × 385 mm (W × H × D)
Volume Approx. 12 litres per mailbox
Material Stainless steel V2A, powder-coated in RAL colour of choice
Finish Powder coating in RAL colour of choice
Standard DIN EN 13724

Mail and operation

Insertion slot 35 × 265 mm, suitable for DIN C4 portrait
Insertion flaps With noise-damping rubber lip
Mail retrieval Front access
Door opening Left to right
Keys 2 keys with key number per mailbox
Nameplate Interchangeable nameplate beneath the insertion flap

Cladding and wall installation

Side cladding Close-fitting design
Rain canopy Solid, unit-matching design
Type of mounting Surface-mounted wall installation
Mounting aid Mounting rail
BASIC Plus Modular construction with directly available spare parts
Fixings Screws and wall plugs included; suitability for on-site wall mounting must be checked
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Note on wall installation

Briefkasten Manufaktur Lippe GmbH

The wall must be even and sufficiently load-bearing. The supplied screws and wall plugs should only be used if they are suitable for the existing wall construction; for other substrates or external thermal insulation composite systems, appropriate fixing solutions must be specified on site.

Note on weather protection

Mail is best protected from moisture and soiling when items are fully inserted and the insertion flap is closed. Protruding letters or magazines may prevent the flap from closing completely.

BASIC Plus construction

The BASIC Plus series consistently uses stainless steel V2A and a modular, installation-friendly construction. Spare parts for BASIC Plus systems are directly available.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
Series	BASIC
Boxes by volume	Normal > 10 litres
Name labelling	Nameplate
Material	Stainless steel V2A 1.4301
Removal of mail	On the front
Mounting type	Surface-mounted
Number of boxes	with 24 letterboxes
