## Stainless steel mailbox free-standing DESIGNER Style ST-R with waste bucket - RAL of your choice

High quality mailbox free-standing including waste containers with elegant round tube stands of the brand Briefkasten Manufaktur. The free-standing mailbox with waste container is made entirely of 2mm stainless steel V2A 1.4301. This mailbox is not afraid of a comparison, extremely high-quality workmanship and precision. A real eye-catcher among the mailboxes. Clear lines and straightforward design are characterized by the designer mailbox.

The dimensions of the waste container enable a capacity of approx. 45 liters, the opening guarantees the comfortable throw-in of waste. Due to the well thought-out garbage sack (see video), the waste container is constructed without visible screw connection and rivets.

Our products have a high value, reliable functionality and their own identity. Made by Briefkasten Manufaktur.

• **Designer stainless steel mailbox free-standing made of 2 mm stainless steel V2A 1.4301, front panel powder-coated in RAL color.**

- The mailbox free-standing is created at the mailbox manufactory. German quality production "Made in Germany".
- no visible screw or rivet.
- Fronts side post-withdrawal door 240 mm x 300 mm, to open from top to bottom. Including 2 key with key number.
- Settling from the front, throw-in size B 24 cm x H 3.5 cm suitable for C4.
- including throw-in damping, this makes the throw-in flap slowly and quietly close.
- Optional name lettering, lasered approx. 10mm high.
- Optional house number label, lasered approx. 100mm high.
- **waste bucket- waste container made of stainless steel V2A 1.4301, powder-coated in RAL color**
- Lid stainless steel V2A 1.4301, powder-coated in RAL color, optional with ashtray.
- capacity of approx. 45 liters, the opening (270mm x 180mm) guarantees the comfortable throw-in of waste.
- Setting and slightly changing the plastic sack: unlock and lose weight, remove the front sheet, change the plastic sack.
- water drain corners in the ground prevent a water accumulation in the container.
- Optional pictograms/lettering possible.
- The stand columns consist of 60.3 mm stainless steel V2A 1.4301, sanded for screw mounting or for concreting.

### Important information:

In order to achieve optimal water protection of your post, the mailbox or the mailbox system should be under a canopy if possible. If you set up this system completely freely, it is recommended to use a rain roof. Connected self-adhesive rain roof included.

The post is only protected from moisture and pollution when the flap is completely thrown and closed. In certain extreme weather conditions, water can still occur (according to DIN EN 13724 to 1ccm). This is not a reason for complaint.

## Abmessungen & Details

Number of parties:	1
Item withdrawal:	Front
