## Product description

## Surface-mounted mailbox system BASIC 385A 220 for 8 households – 25 litres per compartment – RAL 7016 Anthracite grey

The BASIC 385A surface-mounted mailbox system for 8 households is a robust wall solution for multi-family homes, residential complexes and commercially used properties. The balanced arrangement groups all mail compartments into a clearly structured and visually closed wall installation.

The mailboxes are made of galvanised steel and powder-coated in RAL 7016 Anthracite grey fine-textured matt. The close-fitting cladding with rain canopy unites the individual compartments into a continuous, modern surface-mounted system.

Each compartment measures 300 × 220 × 385 mm (W × H × D) and offers approx. 25 litres of volume. The 35 × 265 mm insertion opening is designed for DIN C4 items in portrait orientation. The doors open from left to right; each mailbox is supplied with two keys with key number and a changeable nameplate beneath the mail flap.

## The advantages of the BASIC 385A 220 surface-mounted system at a glance

### Rain canopy and side cladding

The rain canopy and side panels combine the individual mail compartments into a continuous surface-mounted system. The coordinated cladding ensures a calm front and a neat finish on the façade.

### 25 litres mail volume per compartment

The 300 × 220 × 385 mm (W × H × D) compartments each provide approx. 25 litres of volume. The 35 × 265 mm insertion opening also accepts larger DIN C4 items in portrait orientation.

### Quiet insertion and secure allocation

The rubber lip damps the mail flap. Robust locks, two keys with key number and protected changeable nameplates ensure clear allocation of each mailbox.

### Mounting rail for wall installation

The surface-mounted system is designed for direct façade installation. A mounting rail simplifies installation; fixings with screws and wall plugs are included in the described specification.

### Robust surface in RAL 7016

The anthracite grey fine-textured surface gives the system a modern appearance and protects the galvanised steel for daily use on the building. The system is manufactured in Germany by the Briefkasten Manufaktur.
