Stainless steel flush-mounted mailbox BASIC Plus 382XU Elegance I with camera intercom DoorBird D1100E - RAL of your choice

Modern flush-mounted mailbox with wifi-enabled video intercom DoorBird D1100E - made in Germany by Briefkasten Manufaktur. The mailbox is made entirely of stainless steel V2A 1.4301, powder coated in RAL color. The very high quality workmanship and the sophisticated concept make this flush-mounted mailbox our top seller. A rain drainage edge for optimal water protection, a continuous rubber lip for quiet insertion, the solid changeable name plate, a practical mail holding bracket and the very robust lock characterize this flush-mounted mailbox. The flush-mounted frame made of stainless steel V2A is equipped with a foam rubber seal and guarantees a very high durability. Integrated DoorBird IP video door station D1100E. The DoorBird IP Video Door Station D1100E is the smart solution for your entrance door. The IP Video Door Station can be operated as a standalone unit or integrated into an existing smart home platform. Even existing, classic installations such as a door chime or an electric door and gate opener can continue to be used with DoorBird and controlled via the app using a smartphone and tablet.

The letterbox systems of the BASIC Plus collection are characterized by the consistent use of stainless steel V2A. The result is a very high durability and sustainability. The design has been developed by our own engineers with regard to high flexibility or modularity, easy spare parts assembly and uncomplicated self-assembly. Spare parts are directly available for all BASIC Plus systems.

- **Flush-mounted mailbox completely made of stainless steel V2A 1.4301, powder-coated in RAL color of your choice**

Important information

Camera or intercom preparation

The intercom systems must be connected by an electrician. Contact your trusted electrician for planning, mounting and installation.

Water protection

Mail is protected from moisture and contamination only when it is fully inserted and the flap is closed. In certain extreme weather conditions, water may nevertheless enter (according to DIN EN 13724 up to 1ccm). This is not a reason for complaint.
