Stainless steel free-standing letterbox BASIC Plus 381X ST-R Elegance - Comelit VIDEO complete set Wifi - RAL of your choice

Modern free-standing letterbox with wifi-enabled video intercom from Comelit - made in Germany by Briefkasten Manufaktur. The free-standing letterbox is made of stainless steel V2A 1.4301, powder coated in RAL color, the stand elements are made of stainless steel V2A 1.4301, ground. The very high quality workmanship and the sophisticated concept make this free-standing letterbox our top seller. A rain drainage edge for optimal water protection, a continuous rubber lip for quiet insertion, the solid interchangeable name plate, a practical mail holding bracket and the very robust lock distinguish this free-standing letterbox. The side panel and the rain cover are made of stainless steel V2A and thus guarantee a very high durability. Integrated Comelit video intercom including apartment station with an integrated Wifi system for mobile access via app from your smartphone. The letterbox systems of the BASIC Plus collection are characterized by the consistent use of stainless steel V2A. The result is a very high durability and sustainability. The design has been developed by our own engineers with regard to high flexibility or modularity, easy spare parts assembly and uncomplicated self-assembly. Spare parts are directly available for all BASIC Plus systems.

- **free-standing letterbox with letterbox made of stainless steel V2A 1.4301, powder coated in RAL color**

- Side panel and rain roof made of stainless steel V2A, powder coated in RAL color.
- The stand elements are made of 42.4 mm stainless steel V2A 1.4301, ground for screw mounting or for setting in concrete.

Important information

Camera or intercom preparation

The intercom systems must be connected by an electrician. Contact your trusted electrician for planning, mounting and installation.

Water protection

Mail is protected from moisture and contamination only when it is fully inserted and the flap is closed. In certain extreme weather conditions, water may nevertheless enter (according to DIN EN 13724 up to 1ccm). This is not a reason for complaint.
