Design bench NOVALIS - stainless steel - Douglas fir oiled

The NOVALIS bench is modern and full of character and is ideal for unprotected outdoor areas. This bench is part of our bench collection, which effectively sets the scene with an innovative design. With its combination of stainless steel and larch or Douglas fir wood, as well as its linear shape, the bench represents design at its best. This bench is 100% handcrafted at Briefkasten Manufaktur.

A particularly striking feature of the Letterbox Manufaktur benches are the side panels made of 8 mm thick stainless steel plates. The 60 x 40 mm seat planks are made of local Douglas fir wood, but are also available on request, at an additional cost, in walnut, oak or FSC® 100% certified hardwood. Our wood with the FSC seal is produced under consideration of ecological and sustainable aspects and the entire value chain is subject to an audit. Ask us about it.

If desired, individual inscriptions and logos are possible for the bench, so that it can be optimally adapted to your needs. We recommend litter bins with ashtrays matched to our benches in terms of material and design.

- Design bench made of stainless steel V2A 1.4301 and larch wood.
- Handcrafted - Made in Germany.
- Side parts made of 8 mm stainless steel V2A 1.4301, 240 grain ground or powder coated in RAL colour.
- Seat planks made of weather-resistant larch wood, oiled 60 x 40 mm. (We prefer native larch wood, if this is not available, we use native Douglas fir wood).
- **Douglas fir wood is particularly suitable for outdoor use.** It does not soften when it rains and it is also extremely resistant to chemicals, which makes cleaning much easier. Douglas fir has a reddish to reddish brown colouring. Due to weathering influences, Douglas fir wood develops a silver-grey patina.
- Optional inscription on front left on crossbar. Laser inscription approx. 40-50mm high.
- Side parts with foot plates for screw mounting or with adjustable feet for free-standing mounting.

Abmessungen & Details

Base material: Stainless steel, Douglas fir wood

Height in cm: 45,0

Width in cm: 150,0 | 180,0 | 200,0

Seat height in cm: 45,0

Depth in cm: 41,0

Weight in kg: 65,0

Delivery condition: Delivery is completely assembled

Shipping information: Delivery by forwarding agent on double pallet. Before delivery, the forwarding agent will contact you by phone to arrange a date.
