Stainless steel bell plate 150x50 BASIC 421 powder coated with nameplate - 1 party

The bell plate BASIC in RAL color has a very high quality finish and a robust stainless steel button. Installation is simple by inserting the supplied dowels into the masonry, then the element is "hammered" into the dowels. In this way, you achieve an optimal and secure fastening. The fixing material is included.

- Bell plate made of 2mm stainless steel, powder coated in RAL color fine structure matt.
- Round stainless steel bell button, max. 24 V AC/DC, 1.5 A, IP 54 (pressure force limitation).
- Dimensions: 150 x 50 x 2 mm (W x H x D).
- Includes interchangeable nameplate (type 2).
