Stainless steel free-standing letterbox Designer Organic BIG ST-R - RAL of your choice - Comelit VIDEO Komplettsset Wifi

High-quality manufactured free-standing letterbox of the brand mailbox Manufacture in extra large format. Integrated Comelit VIDEO complete set Wifi. Comelit video intercom is an innovative solution with features such as facial recognition, Voice commands and operation via app with your smartphone. Completely pre-programmed for easy installation - connect 2 wires and DONE!

With the front panel powder-coated in modern RAL color and the harmonious stainless steel combination, this free-standing letterbox is an absolute eye-catcher among mailboxes. Organic lines and sleek design distinguish the designer mailbox Organic. Our products have a high value, reliable functionality and their own identity. Made by Briefkasten Manufaktur.

- The mailbox is made of 2mm stainless steel V2A 1.4301, 240 grain ground, front panel powder coated in RAL color. Dimensions: height 780 mm; width: 480 mm; depth 100 mm.
- Frontal mail removal door 350 mm x 300 mm, to be opened from top to bottom. Incl. 2 keys with key number.
- Mail slot from front, dimensions of slot: W 35 cm x H 6.3 cm, C4 landscape. Very large letters fit in without bending.
- Front panel protrudes 2 cm all around.
- With built-in damping elements, these let the insertion flap close slowly and quietly.
- Bell push button made of stainless steel with changeable name plate, illuminated.
- Optionally with house number, backlit in white incl. EVN LED power supply / transformer IP65 12V/DC 0.1-4W for the LED lighting of the house number.
- The columns are made of 60.3 mm stainless steel V2A 1.4301, ground. Invisible cable routing through the columns.

Important information

Camera or intercom preparation

The intercom systems must be connected by an electrician. Contact your trusted electrician for planning, mounting and installation.

Water protection

In order to achieve optimum water protection for your mail, the mailbox or mailbox system should, if possible, be located under a canopy.

Mail is only protected from water when it is completely deposited in the box and the insertion flap is closed. Mail that is not completely inserted allows moisture and dirt to enter the mailbox. Therefore, it is necessary to plan sufficiently sized mailboxes for the upcoming needs. In certain extreme weather conditions, water can still enter (according to DIN EN 13724 up to 1ccm). This is not a reason for complaint.
