## Design stainless steel mailbox free-standing Schiller Medium Elegance VI - house number - name - RAL of choice

Our absolute top seller since 2006. The Schiller Medium mailbox has been made from the high-quality material stainless steel V2A since 2006. In the new design line Elegance, this mailbox shines in a modern look.

High-quality stainless steel design mailbox for stand mounting with a newspaper box. Front panel made of 2mm stainless steel in RAL fine structure, matt powder-coated. The labeling of the house number and the name in stainless steel look very elegant and modern. This mailbox is massively manufactured and the basic material is made of stainless steel. This is how optimal rust protection is given.

The dimensions enable a capacity of approx. 14 liters, the throw-in from above is guaranteed also for DIN-C4 envelopes and magazines or, after several days of absence, no crumpled mail. This mailbox free-standing is designed in such a way that you keep your hands freely when opening, and the inner structure prevents the mail from falling towards you. By throwing in from above, the internal post is optimally protected from weather influences. The lid is secured against annoying rattles with rubber cycling.

- High quality stainless steel design mailbox free-standing in RAL color.
- Corpus made of 1.5 mm stainless steel, powder-coated in RAL color structure, matt.
- Front panel 2 mm stainless steel, powder-coated in RAL color structure, matt.
- Available with the door hit on the left (door lock on the right) or door was hit right (door lock on the left).
- High quality door lock on the side including 2 keys with key number.
- Post throw in from above, throw-in size suitable for C4 envelopes.
- Optimal water protection.
- Engraving the front panel with name and house number. Surface of the engraving stainless steel, ground.
- Name labeling approx. 10-15mm high.
- House number lettering approx. 50-60mm high.
- The stand columns consist of 40 mm x 40 mm rectangular tube stainless steel V2A, sanded or powder-controlled in mailbox paint. To screw or concreted.
