## 4-compartment Stainless steel locker freestanding BASIC Plus 385XB - 4x storage compartments / lockers - stainless steel V2A ground

The complete locker is made of weatherproof stainless steel V2A 1.4301, 240 grain ground. The very high quality workmanship and the well thought-out concept make this locker our top seller. A rain drainage edge for optimal water protection and the robust lock distinguish this locker. This free standing locker is easy to clean and insensitive.

The storage compartments / lockers can be optionally equipped with Schuko socket. Thus, the storage compartments can serve as an e-bike charging station, for example. The storage compartments can be equipped with a lever lock, toggle lock (for padlocks) or with the RFID latch lock - Keylezz.

The systems of the BASIC Plus collection are characterized by the consistent use of stainless steel V2A. The result is very high durability and sustainability. The construction has been developed by our own engineers with regard to high flexibility or modularity, simple spare parts assembly and uncomplicated self-assembly. Spare parts are directly available for all BASIC Plus units.

- 4-compartment Locker completely made of stainless steel V2A 1.4301, 240 grain ground.
- The locker is made at Briefkasten Manufaktur. German quality production "Made in Germany".
