4-compartment Stainless steel locker freestanding BASIC Plus 385XB - 4x lockers - RAL of your choice

The complete locker is made of weatherproof stainless steel V2A 1.4301. The very high quality workmanship and the sophisticated concept make this locker our top seller. A rain drain edge for optimal water protection and the robust lock distinguish this locker. This free standing locker is easy to clean and insensitive.

The storage compartments / lockers can be optionally equipped with Schuko socket. Thus, the storage compartments can serve as an e-bike charging station, for example. The storage compartments can be equipped with a lever lock, toggle lock (for padlocks) or with the RFID latch lock - Keylezz.

The systems of the BASIC Plus collection are characterized by the consistent use of stainless steel V2A. The result is a very high durability and sustainability. The construction has been developed by our own engineers with regard to high flexibility or modularity, easy spare parts assembly and uncomplicated self-assembly.

Spare parts are directly available for all BASIC Plus units.

- 4-compartment Locker completely made of stainless steel V2A 1.4301, 240 grain ground.
- The locker is made at Briefkasten Manufaktur. German quality production "Made in Germany".
- Storage compartments/lockers (WxHxD 370x330x385mm, 46 liters) made of stainless steel V2A 1.4301, powder coated in RAL/DB color.
- Doors open from left to right.
- Incl. 2 keys with key number. Optionally with toggle lock (for padlocks) or with RFID latch lock - Keylezz.
- Optional Schuko socket with shutter inside per storage compartment. Cable routing front facing always on the side storage compartment.
- Incl. close-fitting side panel + rain cover made of 2mm stainless steel V2A 1.4301, 240 grain ground.
- The columns are made of 60.3 mm stainless steel V2A 1.4301, 240 grain polished either for screw mounting or for setting in concrete.
