Impact protection 672 ST-R - suitable for columns & pedestals - RAL of your choice

Thanks to its rounded shape, this elegant crash barrier has an organic appearance that fits into any modern environment. The impact protection is made entirely of V2A 1.4301 stainless steel with a powder-coated finish. The material and workmanship are of the highest quality. Durable weather resistance and absolute robustness against high mechanical loads are a matter of course with this impact protection.

- Ram protection completely made of stainless steel V2A 1.4301, powder-coated in RAL/DB colour.
- The impact protection is created at Briefkasten Manufaktur. German quality manufacturing "Made in Germany".
- Fitting sizes for our pillars and columns.
- The pillars and crossbars are made of 60.3 mm stainless steel V2A 1.4301, powder-coated either for screw mounting or for setting in concrete.
