## DoorBird IP Video Doorphone D2100E for integration purposes - Engineering Edition

Imagine you are not at home right now and your children have locked themselves out or the parcel delivery man is bringing a delivery. With DoorBird this is no longer a problem. Every time the doorbell rings, you get a push notification on your smartphone or tablet and can talk to the visitor and see him in HD quality. So you are guaranteed not to miss a visitor anymore. With DoorBird, you are on the go but still at home, even if a burglar rings the doorbell to check presence.

**For integration purposes in our mailbox systems and tableaux. Doorbell buttons are not included, these are sold separately. Licensed multi-party support and drivers for hardware expansion modules (MTM14E, MTM18A, keypad with 12 buttons, keypad with 16 call buttons, display module, info module), call buttons and hardware expansion modules sold separately.**

### Open API

- Local interface for integration with third party and SIP systems

### Video and audio call

- On smartphones and tablets (iOS, Android) or landline phones (SIP)

### Smart Transmission Mode (STM)

- Real-time audio / video transmission optimized for mobile devices over WLAN, 3G, 4G, 5G

### Smart Home & ONVIF compatible

- KNX, Loxone, Synology, KIWI AVM FRITZ!Fon, URC, Bang & Olufsen, Control4, QNAP, RTI, ELAN, Fibaro and many more.

### Individual time and action plans, e.g.:

- RFID card "abc" has access only on Wednesday from 9 to 11 a.m
- 4D motion detector switches on external lamp between 9 p.m. and 6 a.m

### Automatic door opener

- For use in office and practice environments

### Free cloud recording

- Optionally activatable for visitor history

### Geofencing

- Automatic gate and door opening when visitors return home

### Burglary prevention

- Prevents more break-ins than an alarm system

### Receive parcels at any time

- Direct the parcel carrier to a neighbor's house or open the garage door by smartphone

### Night vision

- With 12 IR LEDs

### Light sensor

- For night vision mode

### Motion sensor with 4D technology

- Distance up to 10 m adjustable via app (interval: 1 m)

### HDTV video

- Ultra wide angle, hemispherical lens, 180°.

### Echo and noise cancellation (AEC, ANR)

### RFID reader

- Remotely configurable via app (e.g. time window)

### Easy connection to the network

- Connection via network cable or bell wire (with 2-wire transformer) to RJ45 jack (PoE, network data)

### Two freely configurable bistable switching relays

- Two doors or gates controllable via app
- Status configurable via app: temporary or permanent switching

## Abmessungen & Details

Connection technology: LAN

Height in cm: 18,6
