11-compartment 6x2 stainless steel flush-mounted mailbox BASIC Plus 382XU UP - RAL of your choice - Individual

Modern 11-compartment flush-mounted mailbox system - made in Germany by Briefkasten Manufaktur.

The mailbox is made entirely of stainless steel V2A, ground. The very high quality workmanship and the sophisticated concept make this flush-mounted mailbox our top seller. A rain drainage edge for optimal water protection, a continuous rubber lip for quiet insertion, the solid changeable name plate, a practical mail holding bracket and the very robust lock distinguish this flush-mounted mailbox. The flush-mounted frame made of stainless steel V2A is equipped with a foam rubber seal and guarantees a very high durability.

The letterboxes of the BASIC Plus collection are characterized by the consistent use of stainless steel V2A. The result is a very high durability and sustainability. The design has been developed by our own engineers with a view to high flexibility or modularity, easy spare parts assembly and uncomplicated self-assembly. Spare parts are directly available for all BASIC Plus systems.

- 11-compartment Flush-mounted mailbox completely made of stainless steel V2A, powder-coated in RAL color of your choice.
- The mailbox system is created at the Briefkasten Manufaktur. German quality production "Made in Germany".
- The mailboxes comply with DIN/EN 13724. Insertion size (3.5 cm x 32.5 cm) for C4 crosswise, here fit even large letters without bending.
- Insertion flap with noise-damping rubber seal for very quiet insertion of mail.
- The door can be opened from left to right.
- Incl. 2 keys with key number, changeable name plate (type 2) under the access flap and mail retainer.
- Large capacity due to optional mailbox depth +50 mm = approx. 17 l. Suitable for companies and households with very large mail volumes.
- Plaster cover frame made of stainless steel angle profile 25 x 58 mm, powder coated in RAL color.

Camera or intercom preparation

We recommend that the electrical installation is always done by an electrician.

We offer preparation of cameras & intercoms of various manufacturers for our mailboxes. The preparation does not include terminal equipment, it is the provision of the screw mounts, holes & perforations. So that you can mount your terminal device without any problems.

Water protection

In order to achieve optimal water protection for your mail, the mailbox or mailbox system should be located under a canopy if possible.

Mail is only protected from water if it is completely inserted in the box and the insertion flap is closed. Mail that is not completely inserted allows moisture and dirt to enter the mailbox. Therefore, it is necessary to plan sufficiently sized mailboxes for the upcoming needs. In certain extreme weather conditions, water can still enter (according to DIN EN 13724 up to 1ccm). This is not a reason for complaint.

Abmessungen & Details

Number of parties:	11
Item withdrawal:	Front
Base material:	Stainless steel
Height single box in cm:	33,0
Width single box in cm:	35,5
