Energy column DESIGNER 605 BIG with distribution box closed - SCHUKO - CEE

High-quality manufactured column for internal mounting of socket strip. The column is made entirely of stainless steel V2A 1.4301. This column is supplied without equipment components. Can be equipped with ready-to-connect socket strips (SCHUKO, CEE 16A 5 p 400V, CEE 16A 3 p 230V). Individual equipment possible on request.

Thanks to the installation box, the equipment components can be stored inside protected from the weather. When in use, the cable is led out of the lower opening so that the door can be closed again. This guarantees a sleek and modern look and your equipment components are perfectly protected.

Thanks to the construction method, self-assembly is uncomplicated.

- High-quality steel made of stainless steel V2A 1.4301 optionally ground or powder-coated in RAL colour of your choice.
- Quality manufacturing - Made in Germany - Briefkasten Manufaktur Lippe.
- The fully welded column is made of 2mm stainless steel V2A 1.4301. Overall height is 1.70 m.
- Installation box made of 2mm stainless steel V2A 1.4301, optionally ground or powder-coated in RAL colour of your choice.
- Front-side extraction door 365 mm x 637 mm, to be opened from left to right.
- The removal door is equipped with damped stainless steel hinges for extremely long durability.
- Optional lever lock, toggle lock or RFID lock.
- Invisible cable feed through the corpus possible.
- The pedestal is equipped with a base plate made of 10mm stainless steel V2A 1.4301. This is refined with a cover panel.
