39 party letterbox system pedestal design BASIC 385P-7016 ST-SOC - LED lettering - RAL 7016 anthracite gray

Modern mailbox system for 39 parties made in Germany by Briefkasten Manufaktur for plinth mounting. The functional box with LaserCut lettering and LED lighting is ideal for the demanding entrance area.

The mailboxes are made of galvanized steel, powder coated in RAL 7016 anthracite gray, the bases are made of stainless steel V2A 1.4301, powder coated in RAL 7016 anthracite gray and are solidly manufactured and at the same time very elegant. A close-fitting side panel with rain canopy and the rain drainage channels for optimal water protection, a throw-in flap with rubber lip, the solid interchangeable name plate and the robust lock characterize this free-standing letterbox system. This mailbox system is easy to clean and insensitive.

Thanks to the construction method, self-assembly is uncomplicated.

• 39er mailbox system completely powder-coated in RAL 7016 anthracite gray fine structure matt

- The system is created at the letterbox manufactory. German quality production "Made in Germany".
- The mailboxes are made of galvanized steel, powder coated in RAL 7016 anthracite-gray fine structure matt and comply with DIN/EN 13724. Insertion size (3.5 cm x 26.5 cm) for C4 high, here fit even large letters without bending.
- Insertion flaps with noise-damping rubber lip for very quiet insertion of mail.
- The doors can be opened from left to right.
- Incl. 2 keys with key number and change name plate under the flap per mailbox.
- **Functional box with LaserCut lettering and LED lighting**
- House number 60-90mm (height depends on the number of characters) with power-saving LED lighting 12V DC approx. 50mA / 1W, white.
- Lettering 60-90mm (height depends on the number of characters) with power-saving LED lighting 12V DC approx. 50mA / 1W, white.
- Incl. EVN LED power supply / transformer IP65 12V/DC 0,1-4W for LED illumination.
- Incl. close-fitting side cladding+canopy made of 2mm stainless steel V2A 1.4301, powder coated in RAL 7016 anthracite gray fine structure matt.
- The fully welded bases are made of 2mm stainless steel V2A 1.4301, powder coated in anthracite gray RAL 7016 fine structure, matt.
- The bases are equipped with a base plate made of VA. This is 10 mm thick and is finished with a cover panel so that no screw connection is visible.

Important information:

Mail is protected from water only when it is completely inserted in the box and the insertion flap is closed. Mail that is not completely inserted allows moisture and dirt to enter the mailbox. Therefore, it is necessary to plan sufficiently sized mailboxes for the upcoming needs. This system is protected against water ingress according to DIN EN 13724. Water ingress is not a reason for complaint.
