free-standing letterbox Design BASIC 381-9016-ZF with newspaper compartment - stainless steel traffic white RAL 9016 optionally with rain protection roof

Modern free-standing letterbox made in Germany by Briefkasten Manufaktur.

The mailbox is made of galvanized steel, powder-coated in traffic white RAL 9016, the stand elements, access flap and newspaper compartment are made of weather-resistant stainless steel V2A, polished. The very high quality workmanship and the well thought-out concept make this free-standing letterbox our top seller. A rain drainage edge for optimum water protection, a double-edged access flap with rubber buffer, the solid changeable name plate, a practical mail retaining bracket and the very robust lock are the distinguishing features of this free-standing letterbox. This mailbox is easy to clean and insensitive.

Thanks to the construction method, self-assembly is uncomplicated.

- free-standing letterbox made of galvanized steel, powder coated in traffic white RAL 9016
- The system is made at the mailbox manufactory. German quality production "Made in Germany".
- The mailbox complies with DIN/EN 13724. Insert size (3.5 cm x 32.5 cm) for C4 crosswise, here fit even large letters without bending.
- Stainless steel insertion flap with noise-dampening rubber buffers for very quiet insertion of mail.
- The door can be opened from left to right.
- Incl. 2 keys with key number, changeable name plate under the access flap and mail holding bracket per mailbox.
- Newspaper compartment, open on both sides, made of stainless steel V2A, polished. Dimensions: 355x100x100mm.
- Additional rain protection can be achieved by the optional rain protection roof made of stainless steel V2A, polished.
- The stand elements are made of 42.4 mm V2A stainless steel 1.4301, ground for screw mounting or for setting in concrete.

Important information:

Mail is only protected from moisture and dirt when fully inserted and the flap is closed. In certain extreme weather conditions, water can still enter (according to DIN EN 13724 up to 1ccm). This is not a reason for complaint.
