## PHOENIX CONTACT Mode 3 charging cable spiralsised Type 2 / Type 2 - length 4m

Safe and fast: with the PHOENIX CONTACT Mode 3 charging cable Type 2 / Type 2 you can charge your electric car with up to 22 kilowatts - at your own wallbox or on the road at a public charging station. The Type 2 connection is now established on most e-vehicle models sold in Germany.

The two type designations stand for the plugs of the eCable. The type 2 plug belongs in the charging pole or box, the other type 2 plug must fit the connection of your e-car. The three-phase plug is EU standard and has a maximum charging power of 22 kilowatts.

- Compatible with charging points with type 2 socket throughout Europe.
- Full flexibility with 4 metre spiralsised cable length.
- Made in Germany
