## Design surface-mounted newspaper box GOETHE AP - RAL of your choice

The modern surface-mounted newspaper box GOETHE is ideal for the sophisticated entrance area. The linear design makes this newspaper box look particularly elegant.

This newspaper box is particularly convenient because the newspaper can be completely inserted. Thus, the newspaper is protected from the weather and can be inserted crease-free. Due to the water drainage edge, the mail inside is optimally protected from the weather. The insertion flap is equipped with a high-quality stop damper, so quiet closing is guaranteed. For removal, the flap is simply opened upwards and the newspaper is conveniently taken out.

The letterboxes of the GOETHE collection are characterized by the consistent use of stainless steel and aluminum. The result is very high durability and sustainability. The design has been developed by our own engineers with a view to high flexibility or modularity, easy spare parts assembly and uncomplicated self-assembly. Spare parts for all GOETHE systems are directly available in our store. Thanks to the design, self-assembly is uncomplicated.

### Protected utility model according to DPMA file number DE: 20 2021 101 679.5

- Newspaper box made of stainless steel and aluminum.
- Quality production - Made in Germany by Briefkasten Manufaktur Lippe.
- Newspaper box (BH 400x200mm) made of stainless steel 1.4016 (non-rusting magnetic stainless steel), powder coated in RAL of your choice with stainless steel laser inscription "NEWSPAPER (will be engraved in your desired language)".
- Newspaper box can be opened from bottom to top.
- Optimal rain protection due to rain protection edges and a rain canopy made of 3mm aluminum AlMg3 W19, powder coated in RAL of your choice.
- Side cladding made of 3mm aluminum AlMg3 W19, powder coated in RAL of your choice.
- Optional name inscription approx. 15-20mm high.
- Optional house number lettering approx. 70-80mm high.
- For wall mounting incl. standard dowels and screws.

### Important information:

In order to achieve optimal water protection of your mail, if possible, the mailbox or mailbox system should be located under a canopy.

Mail is only protected from water when it is completely inserted in the box and the insertion flap is closed. Mail that is not completely inserted allows moisture and dirt to enter the mailbox. This system is protected against water ingress in accordance with DIN EN 13724. Water ingress is not a reason for complaint.
