2-compartment Stainless steel letterbox system freestanding design BASIC 381-VA-ZFG with closed newspaper box - vertical

The 2-compartment letterbox system BASIC with closed newspaper compartment, to be operated with a toggle lock. The complete mailbox system is made of weather-resistant stainless steel, ground. The very high quality workmanship and the sophisticated concept make this stainless steel mailbox system our top seller. A rain drainage edge for optimum water protection, a double-edged access flap with rubber buffer, the solid changeable name plate, a practical mail holding bracket and the very robust lock characterize this stainless steel mailbox system.

Thanks to the construction method, self-assembly is uncomplicated.

The design of your entrance area will be perfect if you combine the self-adhesive stainless steel house number (not included, see accessories).

- 2-compartment Letterbox system free-standing made of stainless steel V2A 1.4301, ground.
- The system is created at the letterbox manufactory. German quality production "Made in Germany".
- The mailboxes comply with DIN/EN 13724. Insert size (3.5 cm x 32.5 cm) for C4 crosswise, here fit even large letters without bending.
- Insertion flap with noise-dampening rubber buffers for very quiet insertion of mail.
- The door can be opened from left to right.
- Incl. 2 keys with key number, changeable name plate under the access flap and mail holding bracket per mailbox.
- Newspaper box with door and toggle lock made of stainless steel V2A 1.4301, ground. Adhesive lettering "ZEITUNG" black. Dimensions: 355x165x100mm.
- Large capacity due to optional letterbox depth +50 mm = approx. 17 l. Suitable for companies and households with very large mail volume.
- Additional rain protection is achieved by the optional rain protection roof made of stainless steel V2A, ground.
- The stand elements are made of 42.4 mm V2A stainless steel 1.4301, ground for screw mounting or for setting in concrete.

Important information:

Mail is only protected from moisture and dirt when fully inserted and the flap is closed. In certain extreme weather conditions, water can still enter (according to DIN EN 13724 up to 1cm). This is not a reason for complaint.
