Design bell pillar GOETHE 200x1600 - RAL of your choice

The modern GOETHE bell pillar is ideal for demanding areas. The rectilinear design makes this bell pillar look particularly elegant. This bell pillar is absolutely weatherproof due to the 3mm side cladding with rain roof and the back wall with base plate made of 6mm aluminum and is perfectly suitable for outdoor use. The bell pillar is available with 1-6 bell buttons. Optionally, a speech hole, camera and house number can be prepared.

The GOETHE collection of doorbell stelaes is characterized by the consistent use of stainless steel and aluminium. The result is very high durability and sustainability. The design has been developed by our own engineers with regard to high flexibility or modularity, easy spare parts assembly and uncomplicated self-assembly. Spare parts for all GOETHE systems are directly available in our store. Thanks to the design, self-assembly is uncomplicated.

Protected utility model according to DPMA file number DE: 20 2021 101 679.5

- High-quality bell pillar made of stainless steel and aluminium.
- Quality production - Made in Germany by Briefkasten Manufaktur Lippe.
- 4x body (WxHxD 200 x 400 x 100 mm) made of stainless steel 1.4016 (non-rusting magnetic stainless steel), powder coated in RAL of your choice.

- Optimal rain protection by rain protection edges and a rain roof made of 3mm aluminum AlMg3 W19, powder-coated in RAL of your choice.
- Side panel made of 3mm aluminum AlMg3 W19, powder coated in RAL of your choice.
- Rear panel and base plate made of 6mm aluminum AlMg3 W19, powder coated in RAL of your choice.
- Invisible mounting in the bell column due to reinforced base plate.

Important information

Camera or intercom preparation

We recommend that the electrical installation is always done by an electrician.

We offer preparation of cameras & intercoms from various manufacturers for our mailboxes. The preparation does not include terminal equipment, it is the provision of the screw mounts, holes & perforations. So that you can easily mount their terminal equipment.
