Product description

8-unit 4x2 stainless steel surface-mounted mailbox Design BASIC Plus 382XA AP - V2A stainless steel, brushed

High-quality surface-mounted mailbox system for 8 households, made in Germany by Briefkasten Manufaktur.

The complete surface-mounted mailbox system is made from V2A stainless steel, brushed. The very high-quality workmanship and well thought-out concept make this mailbox system one of our top sellers. A rain runoff edge for optimal water protection, a continuous rubber lip for quiet mail insertion, a robust interchangeable nameplate, a practical mail retention bracket and a very durable lock distinguish this surface-mounted mailbox system.

The mailbox systems of the BASIC Plus collection are characterised by the consistent use of V2A stainless steel. The result is very high durability and sustainability. The construction has been developed by our own engineers with a view to high flexibility and modularity, easy replacement-part installation and straightforward self-assembly. Spare parts are directly available for all BASIC Plus systems.

Thanks to the design, self-assembly is uncomplicated. The mailbox system is prepared for simple complete mounting, so there is no need for time-consuming wall mounting of individual boxes.
