9-unit freestanding mailbox system Design BASIC 385 ST-R - RAL 7016 anthracite grey | RAL 7016 Anthracite grey, fine texture, matt | 300x110x385 mm (WxHxD) - ?? Normal 12 litres | with 9 mailboxes

Product number 385-7016-9W

Product description

Freestanding 9-compartment mailbox system BASIC 385 for 9 households – wide, multi-column configuration – RAL 7016 Anthracite grey

With 9 separately usable mail compartments, the freestanding BASIC 385 provides a clear mail solution for apartment buildings, residential complexes and commercial properties. The freestanding installation allows flexible positioning where the unit is easily accessible for residents and delivery personnel.

The W configuration distributes the mail compartments in a wider, multi-column arrangement and creates a clear front for multiple users.

The mailboxes are made of galvanised steel and are matt powder-coated in RAL 7016 Anthracite grey with a fine-textured finish. A close-fitting side panel with a rain hood joins the individual mailboxes into a single enclosed unit.

Each compartment features an insertion slot of 35 × 265 mm suitable for DIN C4 items in portrait format. A noise-dampening rubber lip reduces impact noise, while the front access doors open from left to right. Each mailbox is supplied with two keys with key number and a replaceable name plate located beneath the insertion flap.

The advantages of the BASIC 385 at a glance

Substantial stainless-steel stand posts

Round-tube stand posts with approx. 60 mm diameter made of brushed stainless steel V2A 1.4301 form a stable base for the freestanding mailbox system. The robust construction is designed for long-term use at the property entrance.

Large insertion opening to DIN EN 13724

The insertion opening of 35 × 265 mm is designed for DIN C4 items in portrait format. Larger envelopes can also be inserted without bending.

Quiet insertion and comfortable retrieval

A noise-dampening rubber lip reduces the slamming of the insertion flaps. Mail is retrieved from the front via doors that open from left to right.

Durable finish in RAL 7016

The matt, fine-textured surface in Anthracite grey combines a modern appearance with a resilient coating on the galvanised steel.

Proven BASIC quality Made in Germany

The combination of solid material selection, DIN EN 13724-compliant mail compartments and an assembly-friendly construction makes the BASIC 385 a durable solution for daily use.

Equipment of the BASIC 385 mailbox system

Mailbox system

Design Wide, multi-column configuration
Number of mailboxes 9 separately usable mail compartments
Mailbox material Galvanised steel
Finish RAL 7016 Anthracite grey, fine-texture matt
Rain hood / side panel Galvanised steel, powder-coated in RAL 7016 Anthracite grey, fine-texture matt
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Mail and operation

Insertion opening 35 × 265 mm, suitable for DIN C4 portrait
Insertion flaps With noise-dampening rubber lip
Mail retrieval Front access
Door opening From left to right
Keys 2 keys with key number per mailbox
Name plate Replaceable name plate beneath the insertion flap
Standard Mailboxes in accordance with DIN EN 13724

Stand posts and equipment

Stand posts Round tube approx. 60 mm made of brushed stainless steel V2A 1.4301
Installation methods Optionally for screw mounting or embedding in concrete
Fixing Anchor bolts for screw mounting not included; select separately to suit the foundation

Mailbox size and volume

The BASIC 385 is available with different mailbox sizes depending on the product configuration. The standard size 300 × 110 × 385 mm provides approx. 12 litres of volume; depending on the variant, 300 × 220 × 385 mm with approx. 25 litres of volume is also available.

Installation by embedding in concrete

For the freestanding unit we recommend a suitably sized concrete foundation. When embedding in concrete, the stainless-steel stand posts must be set plumb and permanently anchored in the foundation. Foundation size and embedment depth should be matched to ground conditions, unit weight and local circumstances.

Screw mounting on a foundation

For screw mounting a level and load-bearing concrete foundation is required. Suitable anchor bolts or fixing elements must be selected to match the substrate and the load on the unit. For the BASIC-385-ST-R variants, anchor bolts are not included in the standard delivery.

Note on weather protection

Mail is best protected from moisture and soiling only when fully inserted and the insertion flap is closed. Protruding items can prevent the flap from closing completely. In extreme weather conditions, moisture may enter the mailbox despite correct construction in accordance with the standard.

Product properties

Material	Steel, galvanised, Stainless steel V2A 1.4301
Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), Brushed, RAL 9007 grey aluminium, RAL 9016 traffic white
Series	BASIC
Number of boxes	with 9 letterboxes
Boxes by volume	Normal > 10 litres
Name labelling	Nameplate
Mounting type	Free-standing
Removal of mail	On the front
