Module prepared for sockets, switches and device boxes, etc. | RAL 9007 grey aluminium, fine-structure matt

Product number BML-9860-STKD-376-S-9007

Product description

Module prepared for sockets/switches/device boxes etc.

The modular socket module is a suitable addition to modular socket columns and enables flexible, needs-based configuration of the power distribution. It was specifically designed for use in socket columns ORDO.

The socket module is designed for simple installation. It is inserted into the designated module slot of the socket column and securely fastened there. The well-considered construction allows quick replacement of individual modules, thereby reducing downtime and enabling expansions to be implemented efficiently.

The module is prepared to accept sockets, allowing you to install standard sockets, switches, device boxes, etc.
Module colour: RAL 9007 grey aluminium fine-structure matt

Product properties

Material	Stainless steel V2A 1.4301
Surface/colour	RAL 9007 grey aluminium

Dimensions

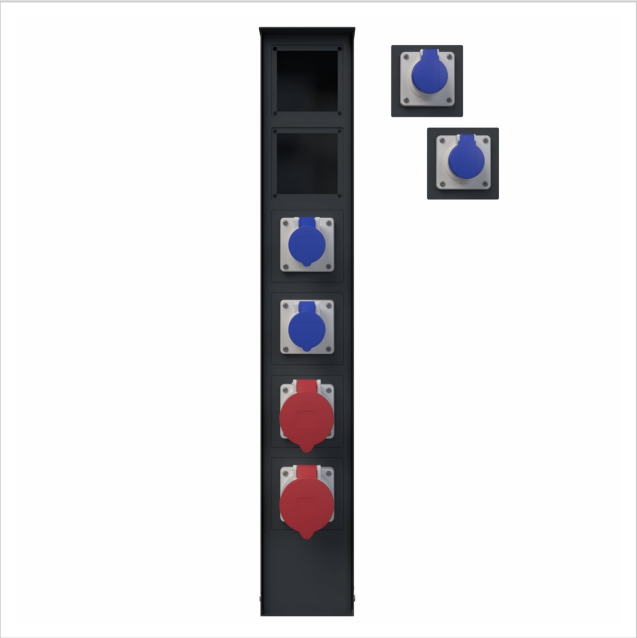

Width in mm	100
Height in mm	100
Total width in mm	100
Depth in mm	1,5
