**Important information:**

To ensure optimal protection of your post from water, the letterbox or letterbox system should, where possible, be positioned under a canopy.

Post is only protected from water if it is placed completely inside the box and the insertion flap is closed. Post that is not fully inserted allows moisture and dirt to enter the letterbox. This system is protected against water ingress in accordance with DIN EN 13724. Water ingress is not a valid reason for a complaint.
