Product description

2-piece letterbox pedestal BASIC Plus 864X with parcel compartment 550x370 & bell box (optional camera) - RAL of your choice

Modern 2-party letterbox column including parcel compartment - made in Germany by Briefkasten Manufaktur.

The letterbox pillar is made entirely of stainless steel V2A and aluminium, powder-coated in RAL colour. The very high-quality workmanship and the well thought-out concept make this letterbox pillar our top seller. A rain drainage edge for optimum water protection, a continuous rubber lip for quiet insertion, the solid interchangeable nameplate and the very robust lock characterise this letterbox pillar. The 6 mm thick side cladding with protruding aluminium rain cover offers optimum protection against the weather and guarantees a very long service life.

Receive parcels regardless of delivery person! Every parcel deliverer (e.g. DHL, DPD, TNT, GLS, Hermes, etc.) can use this parcel letterbox.

The letterbox systems in the BASIC Plus collection are characterised by the consistent use of V2A stainless steel and aluminium. The design has been developed by our own engineers with a view to high flexibility and modularity, simple spare parts assembly and uncomplicated self-assembly. Spare parts are directly available for all BASIC Plus systems.

Important information

Camera or intercom preparation

The intercom systems must be connected by an electrician. Please contact your trusted electrician for planning, fitting and installation.

Water protection

The mail is only protected against moisture and dirt when it is fully inserted and the flap is closed. Under certain extreme weather conditions, water may still enter (up to 1ccm according to DIN EN 13724). This is not a reason for complaint.
