9-unit stainless steel freestanding mailbox Design BASIC Plus 385XP ST-T with bell box - RAL of your choice | Right | ? Colour of your choice | with 9 mailboxes

Product number 385XP-9S-SP-R

Product description

Freestanding mailbox system BASIC Plus 385XP ST-T with doorbell/intercom unit for 9 households – doorbell unit right / S arrangement

The freestanding BASIC Plus 385XP ST-T mailbox system for 9 households combines robust stainless steel letterboxes with an integrated doorbell/intercom unit. Mailbox system and visitor communication are thus combined in a stable, visually cohesive entrance solution for larger apartment buildings, residential complexes and commercial properties. In this configuration the doorbell/intercom unit is positioned on the right.

The mailboxes are made of stainless steel V2A and are high-quality powder-coated in a RAL colour of your choice. Particularly notable are the solid support posts made from anodised aluminium profile: these are also powder-coated, constructed for high stability and provide an exceptionally robust base for the entire mailbox system. Stainless steel and solid aluminium combine longevity with a clear, high-quality architectural appearance.

Each mailbox measures 300 × 110 × 385 mm (W × H × D) and offers approx. 12 litres of volume. The 35 × 265 mm inlet is designed for DIN C4 mail in portrait format. A noise-damping rubber lip on the flap, front mail retrieval, a robust lock and the changeable nameplate ensure comfortable everyday use.

The advantages of the BASIC Plus 385XP ST-T system at a glance

Mailbox and doorbell in one system

9 mailboxes are combined with a doorbell/intercom unit. This reduces additional individual components at the property entrance and provides an orderly overall appearance.

Solid aluminium support posts

Solidly manufactured, anodised aluminium profiles form the particularly robust base of the system. The powder-coated profile construction is designed for high stability and long-term outdoor use.

DIN C4 inlet with 12-litre volume

The 300 × 110 × 385 mm mailboxes each offer approx. 12 litres of mail volume. The 35 × 265 mm inlet accepts DIN C4 mail in portrait format.

Doorbell/intercom unit prepared

The integrated doorbell/intercom unit provides a central location for doorbell buttons and the integration of compatible intercom technology. The electrical components are configured to suit the planned system.

BASIC Plus – built for heavy-duty use

The consistent combination of stainless steel V2A and solid aluminium profiles makes the 385XP a particularly robust mailbox system. The modular construction simplifies installation, maintenance and later replacement of individual components.

Equipment of the BASIC Plus 385XP ST-T mailbox system

Mailbox system

Number of mailboxes 9 separately lockable mailboxes
Individual box 300 × 110 × 385 mm (W × H × D)
Mail volume Approx. 12 litres per mailbox
Mailbox material Stainless steel V2A, powder-coated in RAL colour of choice
Inlet 35 × 265 mm, suitable for DIN C4 portrait
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Mail and additional functions

Doorbell/intercom unit Integrated into the mailbox system
Position Right
Doorbell buttons Corresponding to the number of households
Intercom technology Prepared for a compatible door communication solution
Electrical connection Provided on site according to the selected intercom system
Note Intercom system and connection components depend on the selected configuration

Solid aluminium support posts

Support posts Solid anodised aluminium profile, powder-coated
Construction Designed to be particularly robust and load-bearing
Surface RAL colour to match the mailbox system
Installation Freestanding installation on a suitable foundation
Side cladding Close-fitting design
BASIC Plus Modular, maintenance-friendly and designed for straightforward installation

Note on the doorbell/intercom unit

The specific intercom technology, power supply and cabling depend on the chosen door communication solution. Installation and connection should be carried out by suitably qualified professionals.

Foundation and secure installation

The solid aluminium support posts require a level and sufficiently load-bearing substrate or an appropriately dimensioned concrete foundation. Foundation size, anchoring and alignment must be matched to the system weight, size, ground conditions and local loads.

Note on weather protection

A rain canopy, close-fitting side cladding and rain drainage gutters support weather protection. Mail items must be fully inserted so that the inlet flaps can close completely.

BASIC Plus – robust and modular

The BASIC Plus construction relies on stainless steel V2A and solid aluminium profiles. The modular design simplifies installation and later replacement of individual components and is designed for a long service life.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
Series	BASIC
Number of bell push buttons	9 buttons
Functions	Light button, Intercom
Functional box prepared for manufacturer	GIRA, Busch Jaeger, Siedle, STR Elektronik, ELCOM, TCS, Ritto, ALGO, Telegärtner, Auerswald, Legrand Bticino, Comelit
Number of boxes	with 9 letterboxes
Boxes by volume	Normal > 10 litres
Name labelling	Nameplate
Material	Aluminium AlMg3 W19, Stainless steel V2A 1.4301
Mounting type	Free-standing
Removal of mail	On the front
