Stainless steel parcel letterbox Design BASIC Plus 385XW with parcel compartment 550x300 for side wall mounting - RAL colour of your choice

Product number 385XW-PK550-1S

Product description

Stainless steel parcel mailbox BASIC Plus 385XW with parcel compartment 550 × 300 mm for side wall mounting

The BASIC Plus 385XW parcel mailbox combines a full-sized stainless steel letterbox with a large parcel compartment and a particularly space-saving side wall mounting. The solution is suitable for detached houses, offices and entrance areas where letter and parcel reception should be consolidated directly on a side wall surface.

The letterbox, parcel compartment, rain hood and side cladding are made of stainless steel V2A 1.4301 and are powder-coated in a RAL or DB colour of choice. The side wall fixing is carried out via stainless steel columns Ø 60.3 mm with a 240-grit ground finish.

The parcel compartment enables carrier-independent parcel reception and is designed for larger individual parcel consignments. A parcel lock with snap-lock secures the deposited consignment; the stainless steel laser inscription "PAKET" clearly identifies the compartment.

The benefits of the BASIC Plus 385XW parcel mailbox

Combined letter and parcel reception

A classic postbox compliant with DIN EN 13724 and a separate parcel compartment form a compact overall solution for letters and parcels.

Massive stainless steel mounting columns

The side wall fixing is carried out via Ø 60.3 mm columns made of stainless steel V2A 1.4301 with a 240-grit ground finish. They create a stable and durable connection between the mailbox system and the building wall.

Large parcel compartment 300 × 550 × 385 mm

The parcel compartment is designed for larger individual consignments and features a snap-lock with parcel lock.

DIN C4 letterbox

The 35 × 265 mm insertion aperture accepts DIN C4-format items in portrait orientation. A rubber lip ensures a pleasantly quiet insertion.

Robust BASIC Plus complete solution

Consistent use of stainless steel, modular construction and the combination of letterbox and parcel compartment create a durable entrance solution for daily mail and parcel reception.

Equipment of the BASIC Plus 385XW parcel mailbox

Column surface240-grit ground finish
Mounting type Screw-fix installation to a suitable house wall
FixingsSelect bolt anchors or coach screws on site suitable for the wall
ManufactureMade in Germany by Briefkasten Manufaktur Lippe

Note on parcel reception

The parcel compartment is intended for carrier-independent reception of individual parcel consignments. The maximum usable parcel size depends on the actual internal dimensions and the shape of the consignment.

Note on side wall mounting

The wall must be clean, even and sufficiently load-bearing. Bolt anchors or coach screws are not included and must be selected to suit the wall construction and the weight of the unit.

Briefkasten Manufaktur Lippe GmbH
Werler Straße 60
32105 Bad Salzuflen

Note on weather protection

Mail items must be fully inserted so that the letter flap can close. In cases of extreme direct exposure to the weather, moisture may penetrate despite norm-compliant construction.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
Series	BASIC
