Design letterbox pillar GRIMM - colour of your choice with DoorBird video intercom left | Left | DoorBird | ? Colour of your choice

Product number 562-STLPK-SPL-SF-DB

Product description

Design Mailbox Column GRIMM with DoorBird Video Intercom – The Premium Solution for Mail & Packages

The Design Mailbox Column GRIMM combines modern design, high-quality craftsmanship and maximum flexibility. Made from **2 mm stainless steel V2A 1.4301** and powder-coated in a **colour of your choice**, the column impresses with its timeless elegance and extreme durability. Thanks to the **fully welded construction**, there are no visible screws or rivets, resulting in a particularly refined appearance. The **mailbox and parcel box module** is also installed with invisible screws – providing a premium look at the highest level.

Particularly practical: The modules can be exchanged even after many years. This keeps your mailbox column flexible and future-proof at all times. This model is manufactured by the **Mailbox Manufactory in Bad Salzuflen** – quality work “Made in Germany”.

A distinctive feature of the system is the proven mechanical parcel lock with T-handle, which allows for delivery independent of the carrier: The delivery person places the parcel in the openly accessible compartment and secures it with a simple click. The compartment remains locked until the authorised user opens it with their key. A clever solution – without electronics, without an app, but with maximum security. Whether DHL, UPS, DPD, GLS, Hermes or TNT – every parcel service can use the parcel box. This ensures you receive your deliveries securely and conveniently, even when you are not at home.

At the heart of this system is the DoorBird IP Video Door Station D2100E or D1100E, which integrates seamlessly with modern smart home solutions. It offers live video streaming, intercom functionality and mobile control via the DoorBird app. Whether at home or on the go – with your smartphone, you can see and speak to visitors at your front door at any time. Classic components such as doorbells, electric door openers or gate drives can be easily integrated and controlled through the system.

The GRIMM mailbox is not only a visual highlight but also excels in functionality and quality. Thanks to the innovative push-key lock, the mailbox can be easily and comfortably operated with one hand. Open the door with a press and close it without the use of a key. The lock is optimally protected against weather influences. Additionally, the mailbox features an intelligent retrieval system: The door opens from top to bottom, ensuring that the mail stays securely in the box and cannot fall out. The mail is also inserted comfortably from the front, with high-quality axle dampers ensuring a gentle closing of the mail slot.

Thanks to the DIN/EN 13724 standard, the GRIMM is ideal for large letters in C4 format, which can be placed inside without creases. The GRIMM mailbox impresses with its durable quality, timeless design and well-thought-out functionality.

Mailbox Module with Function Box – Comfort and Functionality

- Made from 2 mm stainless steel V2A 1.4301, powder-coated in a colour of your choice.
- Integrated DoorBird IP Video Door Station – modern door communication via smartphone. Compatible with many smart home systems & existing building technology.
- Innovative push-key lock including 2 keys with key number, convenient locking without a key, optimally protected from weather.
- The retrieval door with opening limiter opens from top to bottom to prevent mail from falling out.
- Front insertion with high-quality axle dampers for very quiet mail insertion.
- DIN/EN 13724 compliant mailbox, insertion size (3.5 cm x 32.5 cm) for C4 landscape – even large letters remain intact. Additional retrieval protection made of stainless steel integrated.
- Optimal weather protection through recessed cover.
- Double box system: The cover can be conveniently installed after construction work and can be replaced at any time.

Parcel Box Module – Secure and Spacious

- Made from 2 mm stainless steel V2A 1.4301, powder-coated in a colour of your choice.
- Parcel volume: 130 litres – ideal for large shipments.
- Maximum parcel dimensions: 505 × 655 × 340 mm (W × H × D).
- Front parcel retrieval door 510 × 660 mm, opens from left to right.
- Door equipped with durable stainless steel hinges.
- Innovative T-handle parcel lock with latch closure.
- Includes 2 keys with key number.
- Icon “PACKAGE” as stainless steel laser engraving.

Construction & Details

- Fully welded upright column made from 2 mm stainless steel V2A 1.4301, powder-coated in a colour of your choice.
- Construction height: 1.70 m.
- Invisible cable feedthrough possible through the body.
- Base plate made of stainless steel (10 mm thick), concealed by an elegant cover plate.
- No visible screws or rivets – seamless design.
- Modules are exchangeable even after years – maximum future-proofing.

To achieve optimal water protection for your mail, the mailbox or mailbox system should preferably be located under a canopy.

The mail is only protected from water if it is completely placed in the box and the mail slot is closed. Mail that is not fully inserted allows moisture and dirt to enter the mailbox. This system is protected against water ingress according to DIN EN 13724. Water ingress is not a grounds for complaint.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
Series	GRIMM
Connection technology	2-wire, LAN
Number of bell push buttons	1 button
Functions	Camera, Intercom, Fingerprint, Keypad, Motion detector, Parcel compartment
Functional box prepared for manufacturer	DoorBird
Number of boxes	with 1 parcel box, with 1 letterbox
Mounting type	Free-standing
Material	Stainless steel V2A 1.4301, Stainless steel 1.4016 (non-rusting magnetic stainless steel)
House number	House number as laser engraving
Name labelling	Laser-engraved
Removal of mail	On the front
Boxes by volume	Large > 16 litres
