6-unit freestanding mailbox system Design BASIC - Edition NELLY - Two-tone stainless steel (VA) - RAL 7016 anthracite grey | with 6 mailboxes (3x2)

Product number 384P-7016VA-6-3X2

Product description

6-unit freestanding mailbox system BASIC – Edition NELLY – 3 × 2 – BI-Color stainless steel / RAL 7016 anthracite grey

"Everything begins with longing." – Nelly Sachs

The Edition NELLY combines the proven BASIC mailbox technology with a significantly more individual appearance. The mailbox body is made from galvanised steel and is powder-coated in RAL 7016 anthracite grey fine-texture matt, while the mail slots are stainless steel V2A 1.4301, 240-grit brushed. This deliberate BI-Color contrast appears modern and high-quality and pairs well with many front doors, windows and façades. As a freestanding unit with 6 mailboxes (3 × 2), NELLY is not only intended for mail collection but also serves as a neatly designed element of the entrance area. The slim, flush-mounted frame and the labellable rain canopy make the system a standalone design feature at the property entrance.

The special advantages of Edition NELLY

Rain canopy doubles as the NELLY labelling panel

The rain canopy performs two functions in NELLY: it complements the weather protection and simultaneously becomes a distinctive labelling surface. Your individual laser engraving for house number and/or street name makes the freestanding unit clear and personal already at the property entrance.

BI-Color: RAL 7016 meets brushed stainless steel

The mailbox body is made from galvanised steel and powder-coated in RAL 7016 anthracite grey fine-texture matt. The mail slots, by contrast, are stainless steel V2A 1.4301 and are 240-grit brushed. The rain canopy and support posts are stainless steel V2A and powder-coated; the brushed mail slots provide the visible stainless-steel accent.

Large aperture for DIN C4

The 35 × 325 mm mail aperture is designed for DIN C4 in landscape format. Larger letters can also be posted without being bent. The mailbox conforms to DIN EN 13724.

Quiet operation for everyday use

The brushed stainless-steel mail slots are fitted with a noise-dampening rubber seal. A mail-retention bar supports controlled removal, while the doors open from left to right.

Solid stainless-steel support posts 20 × 100 mm

The freestanding NELLY system is supported by slim yet solid support posts made from 2 mm thick stainless steel V2A 1.4301. With a 20 × 100 mm cross-section and a powder-coated finish the posts appear flush and elegant, while providing a stable base for the entire system.

Equipment and technical features

Material and mailbox

Configuration 6 mailboxes (3 × 2)
Mailbox body Steel, galvanised; powder-coated in RAL 7016 anthracite grey fine-texture matt
Mail slots Stainless steel V2A 1.4301, 240-grit brushed
Mail aperture 35 × 325 mm, DIN C4 landscape
Standard DIN EN 13724

NELLY design and operation

Labelling Individual laser engraving in BML Lasercut font
Nameplate Interchangeable nameplate beneath the mail slot
Mail-retention bar Integrated for each mailbox
Mail removal Front access
Door opening From left to right
Locking system Depending on chosen product configuration

Installation and construction

Type of installation Freestanding
Support posts 20 × 100 mm, made from 2 mm stainless steel V2A 1.4301, powder-coated
Rain canopy Stainless steel V2A, powder-coated and usable as a labelling surface
Mounting options For bolting to a suitable foundation or for concreting in
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Note on weather protection

Mail is protected from moisture and dirt as far as possible when fully inserted and with the mail flap closed. Protruding items may prevent the flap from closing completely.

Note on stand installation
