6-unit stainless steel surface-mounted letterbox system Design BASIC Plus 385XA AP - RAL colour of your choice | 300x110x385 mm (WxHxD) - ?? Normal 12 litres | ? Colour of your choice | with 6 mailboxes (1x6)

Product number 385XA-6S

Product description

Slim surface-mounted mailbox system BASIC Plus 385XA for 6 tenants – RAL colour of your choice

The BASIC Plus 385XA surface-mounted mailbox system for 6 tenants is a robust wall-mounted solution for apartment buildings, smaller residential complexes as well as office and medical practice properties. The vertically organised S configuration reduces the horizontal space requirement and uses the available wall height particularly efficiently.

The BASIC Plus mailbox system is consistently made from V2A stainless steel and is powder-coated in the selected RAL colour. The modular construction is designed for durability, easy installation and good spare parts availability.

Each mailbox measures 300 × 110 × 385 mm (W × H × D) and offers approx. 12 litres of volume. The 35 × 265 mm slot is designed for DIN C4 items in portrait orientation. The doors open from left to right; each mailbox includes two keys with key number and an interchangeable nameplate beneath the mail flap.

The advantages of the BASIC Plus 385XA surface-mounted system at a glance

Rain hood and side cladding

The rain hood and side panels bring the individual mailboxes together into a unified surface-mounted assembly. The coordinated cladding provides a calm front and a neat finish at the façade.

DIN C4 slot and 12 litres volume

The 300 × 110 × 385 mm (W × H × D) mailboxes each provide approx. 12 litres of volume. The 35 × 265 mm slot also accepts larger DIN C4 items in portrait format.

Quiet insertion and secure allocation

The rubber lip damps the mail flap. Robust locks, two keys with key numbers and protected interchangeable nameplates ensure clear allocation of the individual mailboxes.

Mounting rail for wall installation

The surface-mounted system is designed for direct façade mounting. A mounting rail facilitates installation; fixing materials with screws and wall plugs are included in the specified configuration.

BASIC Plus in RAL colour of your choice

V2A stainless steel forms the robust basis; the powder coating can be carried out in the desired RAL colour to match the façade, front door and window profiles. BASIC Plus also stands for consistent V2A use, modular construction and directly available spare parts.

Equipment of the BASIC Plus 385XA mailbox system

Mailbox system

Number of mailboxes 6 separately lockable mailboxes
Single box 300 × 110 × 385 mm (W × H × D)
Volume Approx. 12 litres per mailbox
Material V2A stainless steel, powder-coated in RAL colour of your choice
Finish Powder coating in RAL colour of your choice
Standard DIN EN 13724

Mail and operation

Mail slot 35 × 265 mm, suitable for DIN C4 portrait
Mail flaps With noise-dampening rubber lip
Mail retrieval From the front
Door opening From left to right
Keys 2 keys with key number per mailbox
Nameplate Interchangeable nameplate beneath the mail flap

Cladding and wall mounting

Side cladding Close-fitting design
Rain hood Sturdy, system-matching design
Mounting type Surface-mounted wall installation
Installation aid Mounting rail
BASIC Plus Modular design with directly available spare parts
Fixing materials Screws and wall plugs included; suitability for on-site wall construction must be checked
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Note on wall mounting

Briefkasten Manufaktur Lippe GmbH

The wall must be even and sufficiently load-bearing. The supplied screws and wall plugs should only be used if they are suitable for the existing wall construction; for other substrates or external thermal insulation composite systems, appropriate fastening solutions must be specified on site.

Note on weather protection

Mail is best protected from moisture and dirt only when items are fully inserted and the mail flap is closed. Protruding letters or magazines can prevent the flap from closing completely.

BASIC Plus construction

The BASIC Plus series consistently uses V2A stainless steel and a modular, installation-friendly construction. Spare parts for BASIC Plus systems are readily available.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
Series	BASIC
Number of boxes	with 6 letterboxes
Boxes by volume	Normal > 10 litres
Name labelling	Nameplate
Material	Stainless steel V2A 1.4301
Removal of mail	On the front
