Product description

16-unit 6x3 stainless steel surface-mounted mailbox Design BASIC Plus 382XA AP - stainless steel V2A brushed

High-quality surface-mounted mailbox for 16 units manufactured in Germany by Briefkasten Manufaktur.

The complete surface-mounted mailbox system is made of stainless steel V2A, brushed. The very high-quality workmanship and the well thought-out concept make this mailbox system one of our top sellers. A rain-drip edge for optimal water protection, a continuous rubber lip for quiet deposit, a solid interchangeable nameplate, a practical mail retention bar and the very robust lock characterise this surface-mounted mailbox system.

The mailbox systems of the BASIC Plus collection are distinguished by the consistent use of stainless steel V2A. The result is very high durability and sustainability. The construction has been developed by our own engineers with regard to high flexibility and modularity, easy replacement-part assembly and straightforward self-installation. Spare parts are directly available for all BASIC Plus systems.

Thanks to the design, self-installation is uncomplicated. The mailbox system is prepared for simple complete installation; there is no need for elaborate wall mounting of individual boxes.
