Product number 215-STL-PK600-1BK-SPL-GI106KS

Product description

Free-standing XXL parcel box GOETHE with 1 mailbox and GIRA System 106 - video intercom left - delivery sluice system - RAL colour of your choice

Parcel delivery has changed significantly in recent years – today customers expect more flexibility and security than ever before. With the **GOETHE parcel mailbox** from Briefkasten Manufaktur you rely on an optimal combination of innovative technology and outstanding design, manufactured from high-quality stainless steel and aluminium, powder-coated in the RAL colour of your choice. Integrated is the **GIRA System 106**, which, thanks to its modular design, offers a particularly flexible and future-proof solution for your entrance. Three GIRA system modules are already included in the scope of delivery, so the mailbox is ready for immediate use. The appropriate GIRA apartment station and the required control unit are also included to complete the system. Thanks to the simple mounting system, the modules can be exchanged or expanded at any time afterwards without great effort.

The **mailbox** (BH 400x400 mm) is made of stainless steel 1.4016 (corrosion-resistant, magnetic stainless steel), powder-coated in an RAL colour of your choice. It is equipped with an innovative Push-Key lock, which is keyed alike with that of the parcel box and is supplied with ten keys. Letter insertion and retrieval are from the front. The insertion flap is fitted with high-quality hinge dampers, allowing mail to be deposited particularly quietly. The mailbox complies with **DIN/EN 13724** with an inlet size of 3.5 x 36.0 cm – sufficient for C4 envelopes in landscape orientation without bending. The retrieval door opens downwards so that your mail cannot fall out. The dimensions of the mailbox provide a capacity of approximately 64 litres. The innovative Push-Key lock is discreetly concealed inside: the key is simply inserted – without turning – and the door opens.

Briefkasten Manufaktur Lippe GmbH

The generous **parcel box** (BH 600x1200 mm) is also made of stainless steel 1.4016, powder-coated in an RAL colour of your choice. It has a volume of 192 litres and allows delivery of parcels up to a size of 555 x 375 x 305 mm (BHT), which corresponds to DHL parcel size L. The parcel inlet flap is damped and closes very quietly. Thanks to the specially developed delivery sluice, your parcel is automatically transferred into the secured retrieval compartment after insertion. The sluice is immediately ready for further deliveries and remains isolated from the retrieval compartment – ensuring your consignments are optimally protected at all times. Any delivery service (e.g. DHL, DPD, TNT, GLS, Hermes) can use the parcel mailbox. Depending on placement, up to four DHL parcels of size M may even fit inside.

Briefkasten Manufaktur places the greatest value on high-quality materials. Stainless steel provides extremely high corrosion resistance and an elegant surface finish. Quality assurance begins with the selection of our raw material suppliers and only ends when the parcel mailbox arrives with you in the required quality. Rely on the **GOETHE parcel mailbox** – a secure, flexible and stylish solution for your mail and parcel delivery. A product that combines traditional craftsmanship with the latest technology – Made in Germany by Briefkasten Manufaktur Lippe.

- High-quality parcel mailbox made of stainless steel and aluminium, powder-coated in the colour of your choice.
- Quality manufacturing - Made in Germany by Briefkasten Manufaktur Lippe.
- Mailbox (BH 400x400mm) made of stainless steel 1.4016 (corrosion-resistant magnetic stainless steel), powder-coated in RAL of your choice with stainless steel laser-engraved pictogram "BRIEF".
- 2 innovative Push-Key locks with 10 keys, keyed alike.
- Letter insertion and retrieval from the front. Insertion flap with high-quality hinge dampers for very quiet mail insertion.
- The mailbox complies with DIN/EN 13724. Inlet size (3.5 cm x 36.0 cm) for C4 landscape – large letters fit without bending.
- Retrieval door opens downwards. This prevents your mail from falling out.
- Parcel box (BH 600x1200mm) made of stainless steel 1.4016 (corrosion-resistant magnetic stainless steel), powder-coated in RAL of your choice with stainless steel laser-engraved pictogram "PAKET".
- Parcel compartment volume: 192 litres, max. parcel dimensions: 555 x 375 x 305 mm (BHT), which corresponds to parcel size L.
- Parcel inlet flap with damping for quiet closing.
- Function compartment (BH 200x400mm) made of stainless steel 1.4016 (corrosion-resistant magnetic stainless steel), powder-coated in RAL of your choice.
- Incl. GIRA apartment station & control unit supplied, System 106 door station module, info module & camera module installed.
- Optimal protection from rain thanks to rain runoff edges and a rain hood made of 3mm aluminium AlMg3 W19, powder-coated in RAL of your choice.
- Side cladding made of 3mm aluminium AlMg3 W19, powder-coated in RAL of your choice.
- Rear panel made of 1mm stainless steel 1.4301 V2A, powder-coated in RAL of your choice.
- Base made of 40x40x2mm stainless steel tube 1.4301 V2A, powder-coated in RAL of your choice.
- Invisible fixing and cable routing inside the post. The overall height is 1.65 m.

GIRA

Camera module Gira System 106 - 5561 000

- Behind the interchangeable black glass panel is a high-quality camera with high light sensitivity. With a detection angle of 100° the user is always informed about what is happening at their front door.

Info module Gira System 106 - 5560 920

- For house numbers that should be displayed prominently.

Door station module Gira System 106 - 5565 920

- Compact speech module with integrated call button for communication between inside and outside.
- A high-quality microphone and a weatherproof loudspeaker ensure good intelligibility.
- Power supply via 2-wire bus. Additional connection for ZV (e.g. required from the 3rd camera module onwards).
- All other System 106 modules (except the speech module) are supplied with power via the door station module.

Apartment station Gira Video AP 7 1209xx

- Video apartment station with a 17.78 cm (7") TFT colour display and convenient hands-free function for surface mounting or wall mounting with a flush-mount device box or hollow-wall box. With the optional stand (see Accessories) also suitable for placement on furniture. A 32 GB SD memory card is included in the scope of delivery for internal image storage. Full-surface glass front with touch functionality and tactile feedback.

Video control unit REG Gira 128800

- Control unit for powering the audio and video components of the Gira door communication bus.
- Supply of the polarity-protected and short-circuit-proof 2-wire bus when using video components such as colour camera, TFT colour display.
- Up to 2 door stations with colour camera and 28 apartment stations with TFT colour display can be supplied via the video control unit.
- In total, up to 15 colour cameras can be controlled by the video control unit (5 door stations with video and 10 TKS camera gateways), of which two door stations with colour camera can be supplied with power by the video control unit. The remaining colour cameras must each be operated with their own power supply for door communication.
- Self-resetting electronic short-circuit and overload detection of the operating voltages and the bus connection.
- Buttons for system and door opener programming.
- LED status indicators for operation, overload, system programming and door opener programming.
- AC 12 V output for powering a conventional door opener.
- Relay output for switching a door opener with its own power supply.
- Door opener switching time continuously adjustable from 1 to 10 s.

Important information

Water protection

To achieve optimal water protection for your mail, the mailbox or mailbox system should, where possible, be located under a canopy.

Mail is only protected from water if it is placed completely inside the box and the inlet flap is closed. Partially inserted mail allows moisture and dirt to enter the mailbox. This installation is protected against water ingress according to DIN EN 13724. Water ingress does not constitute grounds for a complaint.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
Series	GOETHE
Connection technology	2-wire
Number of bell push buttons	1 button
Functions	Newspaper compartment, Camera, Intercom, Parcel compartment
Functional box prepared for manufacturer	GIRA
Number of boxes	with 1 parcel box, with 1 letterbox
Material	Aluminium AlMg3 W19, Stainless steel V2A 1.4301, Stainless steel 1.4016 (non-rusting magnetic stainless steel)
Mounting type	Free-standing
House number	House number as laser engraving
Name labelling	Laser-engraved
Removal of mail	On the front
Boxes by volume	Jumbo > 30 litres
