5-unit freestanding mailbox system Design BASIC 385-9016 ST-R - RAL 9016 traffic white | RAL 9016 Traffic White, fine-textured matt | 300x110x385 mm (WxHxD) - ?? Normal 12 litres | with 5 mailboxes

Product number 385-9016-5S

Product description

Freestanding 5-unit mailbox system BASIC 385 for 5 households – narrow, vertically oriented version – RAL 9016 Traffic White

For apartment buildings, smaller residential complexes as well as office and medical practice properties, the freestanding BASIC 385 as a system for 5 households offers a durable and clear entrance solution. The independent freestanding installation allows the mailbox system to be positioned to suit the plot and access situation.

The S version is vertically oriented and uses the available system width particularly efficiently – ideal for narrower property accesses.

The mailboxes are made of galvanised steel and receive a powder coating in RAL 9016 Traffic White fine-textured matt. A close-fitting side cladding with rain hood unites the individual mailboxes into a closed system.

Each compartment has a drop slot of 35 × 265 mm for DIN C4 items in portrait format. A noise-dampening rubber lip reduces slamming noises, while the front-facing retrieval doors open from left to right. Each mailbox is supplied with two keys with key number and a changeable nameplate positioned beneath the drop flap.

Key advantages of the BASIC 385 at a glance

Solid stainless-steel stand elements

Round-tube stand elements of approx. 60 mm diameter in brushed stainless steel V2A 1.4301 form a stable base for the freestanding mailbox system. The robust construction is designed for long-term use at the property entrance.

Large drop slot to DIN EN 13724

The drop slot measuring 35 × 265 mm is designed for DIN C4 items in portrait orientation. Larger envelopes can also be deposited without folding.

Quiet deposit and convenient retrieval

A noise-dampening rubber lip reduces the impact noise of the drop flaps. Mail is retrieved from the front via doors that open from left to right.

Bright finish in RAL 9016

RAL 9016 Traffic White fine-textured matt provides a clear, bright appearance and protects the galvanised steel construction long-term.

Proven BASIC quality Made in Germany

The combination of solid material selection, DIN EN 13724-compliant compartments and an installation-friendly construction makes the BASIC 385 a durable solution for daily use.

Equipment of the BASIC 385 mailbox system

Mailbox system

Design Narrow, vertically oriented version
Number of mailboxes 5 separately usable compartments
Material of mailboxes Galvanised steel
Finish RAL 9016 Traffic White fine-textured matt
Rain hood / side cladding Galvanised steel, powder-coated in RAL 9016 Traffic White fine-textured matt
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Mail handling and operation

Drop slot 35 × 265 mm, suitable for DIN C4 portrait
Drop flaps With noise-dampening rubber lip
Mail retrieval From the front
Door opening From left to right
Keys 2 keys with key number per mailbox
Nameplate Changeable nameplate beneath the drop flap
Standard Mailboxes conforming to DIN EN 13724

Stand elements and equipment

Stand elements Round tube approx. 60 mm in stainless steel V2A 1.4301, brushed
Mounting options Optionally for screw mounting or for embedding in concrete
Fixing Bolt anchors for screw mounting not included; select separately to suit the foundation

Mailbox size and volume

The BASIC 385 is available in different mailbox sizes depending on product configuration. The standard version 300 × 110 × 385 mm offers approx. 12 litres volume; depending on the variant, 300 × 220 × 385 mm with approx. 25 litres volume is also available.

Installation by concreting in

For the freestanding system we recommend a sufficiently dimensioned concrete foundation. When concreting in, the stainless-steel stand elements must be set plumb and permanently anchored in the foundation. Foundation size and embedment depth must be matched to ground conditions, system weight and local circumstances.

Screw mounting onto a foundation

For screw mounting a flat and load-bearing concrete foundation is required. Suitable anchor bolts or fixing materials must be chosen to suit the substrate and the system load. For the BASIC-385-ST-R versions anchor bolts are not included in the standard scope of delivery.

Note on weather protection

Mail items are best protected against moisture and soiling only when fully inserted and with the drop flap closed. Protruding items may prevent the flap from closing fully. Under extreme weather conditions, moisture may enter the mailbox despite compliant design.

Product properties

Material	Steel, galvanised, Stainless steel V2A 1.4301
Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), Brushed, RAL 9007 grey aluminium, RAL 9016 traffic white
Series	BASIC
Boxes by volume	Normal > 10 litres
Name labelling	Nameplate
Mounting type	Free-standing
Removal of mail	On the front
Number of boxes	with 5 letterboxes
