Stainless steel through-the-wall letterbox GRIMM - GIRA System 106 - prepared for 3 modules | with 1 mailbox

Product number 515DW-V-GI106

Product description

Stainless steel wall-mounted mailbox designer model - GIRA System 106 - 3-gang prepared

High-quality, through-the-wall letterbox from Briefkasten Manufaktur. Due to the variable shaft length between 270mm and 400mm, this letterbox can be installed in almost all types of masonry. The post is removed from the rear. The front and rear stainless steel plates made of 2mm stainless steel V2A, polished, can be invisibly attached to the wall thanks to the screw connection on the inside of the shaft. No fixing screws are visible.

The Gira System 106 can be used seamlessly in a flush-mounted design. The preparation is intended for 3 GIRA 106 system modules. The modules can be flush-mounted using the simple mounting system (surface-mounted housing 5503910 required!).

This is a real eye-catcher among letterboxes. Clear lines and no-frills design characterise the designer letterbox with GIRA System 106. Our products have a high quality, reliable functionality and their own identity. Made by Briefkasten Manufaktur.

- Designer stainless steel letterbox made of 2 mm stainless steel V2A, 1.4301 240 grain polished.
- Rear mail removal door 300x100mm, opens from left to right. Incl. 2 keys with key number.

Important information

Camera or intercom preparation

The intercom systems must be connected by an electrician. Please contact your trusted electrician for planning, fitting and installation.

Water protection

To achieve optimum water protection for your mail, the letterbox or letterbox system should be located under a canopy if possible.

The mail is only protected from water if it is fully inserted in the box and the flap is closed. Mail that is not fully inserted allows moisture and dirt to penetrate the letterbox. It is therefore necessary to plan sufficiently dimensioned letterboxes for the upcoming requirements. In certain extreme weather conditions, water can still enter (up to 1ccm according to DIN EN 13724). This is not a reason for complaint.

Product properties

Series	GRIMM
Functions	Newspaper compartment
Functional box prepared for manufacturer	GIRA
Material	Aluminium AlMg3 W19, Stainless steel V2A 1.4301
Number of boxes	with 1 letterbox
Surface/colour	Brushed
Boxes by volume	Large > 16 litres
Mounting type	Wall throw-through
Removal of mail	On the back
