Product number 562-STLPK-SPL-SF-EKX

Product description

Design Mailbox Column GRIMM with Ekinex Dico IP Intercom – The Premium Solution for Mail & Packages

The Design Mailbox Column GRIMM combines modern design, high-quality workmanship, and maximum flexibility. Made from **2 mm stainless steel V2A 1.4301** and powder-coated in a **colour of your choice**, the column impresses with its timeless elegance and extreme robustness. Thanks to its **fully welded construction**, there are no visible screws or rivets, creating a particularly sophisticated appearance. The **mailbox and parcel box module** is also fitted with invisible screws for an elegant finish at the highest level.

Particularly practical: the modules can be replaced even after many years. This ensures that your mailbox column remains flexible and future-proof at all times. This model is manufactured by the **Mailbox Manufactory in Bad Salzuflen** – quality work "Made in Germany".

A special feature of the system is the proven mechanical parcel lock with T-handle, which enables delivery independent of the courier: the courier places the parcel in the openly accessible compartment and locks it with a simple click. The compartment remains locked until the authorised user opens it with their key. A clever solution – without electronics, without an app, but with maximum security. Whether DHL, UPS, DPD, GLS, Hermes, or TNT – every parcel service can use the parcel box. This way, you receive your shipments securely and conveniently at any time, even when you are not at home.

Particularly noteworthy is the seamless integration of the Ekinex IP Dico video intercom with the Delégo panel available in sizes 4, 8, or 10 inches. This high-quality solution offers modern, IP-based door communication with touch control, intelligent management, and brilliant image and sound quality. The precise fitting in the front panel creates a harmonious overall appearance – perfectly adapted to the architecture of modern residential and commercial buildings. The Delégo panels enable comfortable control directly at the door or centrally within the building and provide various options for building networking.

The GRIMM mailbox is not only an optical highlight but also excels in functionality and quality. Thanks to the innovative push-key lock, the mailbox can be easily and comfortably operated with one hand. Open the door with a push and close it without using a key. The lock is optimally protected against weather influences. Additionally, the mailbox features an intelligent retrieval system: the door opens from top to bottom, ensuring that the mail stays securely inside and does not fall out. Mail can also be conveniently inserted from the front, with high-quality dampers ensuring a gentle closing of the mail slot.

In accordance with the DIN/EN 13724 standard, the GRIMM is ideal for large letters in C4 format, which can be deposited without creases. The GRIMM mailbox impresses with its durable quality, timeless design, and thoughtful functionality.

Mailbox Module with Function Box – Comfort and Functionality

- Made from 2 mm stainless steel V2A 1.4301, powder-coated in your chosen colour.
- Integrated Ekinex Dico IP video intercom 5” (Art. No. EK-5DP-VI) with Delégo panel available in sizes 4, 8, or 10 inches.
- Innovative push-key lock including 2 keys with key number, pleasant closure without a key, optimally protected against weather.
- The retrieval door with opening limiter opens from top to bottom to prevent the mail from falling out.
- Front mail insertion with high-quality dampers for very quiet mail insertion.
- DIN/EN 13724 compliant mailbox, insertion size (3.5 cm x 32.5 cm) for C4 landscape – even large letters remain intact. Additional retrieval protection made of stainless steel integrated.
- Optimal weather protection thanks to recessed cover.
- Double box system: the cover can be conveniently installed after completion of construction works and changed at any time.

Parcel Box Module – Secure and Spacious

- Made from 2 mm stainless steel V2A 1.4301, powder-coated in your chosen colour.
- Parcel volume: 130 litres – ideal for large shipments.
- Maximum parcel dimensions: 505 × 655 × 340 mm (W × H × D).
- Front parcel retrieval door 510 × 660 mm, opens from left to right.
- Door equipped with durable stainless steel hinges.
- Innovative T-handle parcel lock with snap closure.
- Including 2 keys with key number.
- Icon "PACKAGE" as stainless steel laser engraving.

Construction & Details

- Fully welded stand column made from 2 mm stainless steel V2A 1.4301, powder-coated in your chosen colour.
- Construction height: 1.70 m.
- Invisible cable routing possible through the body.
- Footplate made of stainless steel (10 mm thick), concealed by an elegant cover panel.
- No visible screws or rivets – seamless design.
- Modules are exchangeable even after years – maximum future security.

Important Information:

To achieve optimal water protection for your mail, the mailbox or mailbox system should, if possible, be located under a canopy.

The mail is only protected from water when it is placed completely inside the box and the mail slot is closed. Not fully inserted mail allows moisture and dirt to enter the mailbox. This system is protected against water ingress according to DIN EN 13724. Water ingress is not a valid reason for complaint.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
Series	GRIMM
