3-unit freestanding mailbox system Design BASIC 385P-7016-SP with bell-intercom unit incl. side cladding & rain hood - horizontal mailboxes - Anthracite grey RAL 7016 | RAL 7016 Anthracite grey, fine texture, matt | Top | with 3 mailboxes

Product number 385P-7016-3-SP

Product description

Freestanding mailbox system BASIC 385P with bell/intercom unit for 3 parties – RAL 7016 Anthracite grey

The freestanding BASIC 385P mailbox system for 3 parties combines 3 separately usable mailboxes with an integrated bell function housing. This unites mail reception, doorbell push-buttons and the preparation for a compatible door intercom system in a robust, visually unified entrance solution for two- and small multi-family houses, office and practice premises. The bell function housing is directly integrated into the overall unit.

The mailboxes are made from galvanised steel and powder-coated in RAL 7016 Anthracite grey fine-textured matt. A close-fitting side cladding with rain hood and integrated rain drainage channels support weather protection. The solidly manufactured uprights made from anodised aluminium profile are also powder-coated in RAL 7016 Anthracite grey and form an especially stable, durable base for the freestanding unit.

Each of the 3 mail compartments has approx. 12 litres of volume. The 35 × 265 mm insertion slot is designed for DIN C4 items in portrait orientation. A sound-dampening rubber lip reduces the slamming of the insertion flap. Mail is retrieved from the front; the collection doors open from left to right. Each mailbox is supplied with two keys bearing a key number and an interchangeable nameplate beneath the insertion flap.

The advantages of the BASIC 385P mailbox system at a glance

Integrated bell/intercom housing

The unit combines 3 mailboxes with 3 stainless steel bell push-buttons and a speaker aperture with universal adapter. This creates a central, tidy solution for mail and visitor communication.

Solid aluminium uprights

Solidly manufactured, anodised aluminium profiles form the stable base of the freestanding unit. The powder-coated construction combines high load capacity with a durable finish for outdoor use.

DIN C4 insertion with 12 litre volume

The mailboxes each offer approx. 12 litres of mail volume. The 35 × 265 mm insertion slot accepts DIN C4 items in portrait orientation without larger envelopes being unnecessarily folded.

Prepared for door communication

The speaker aperture with universal adapter is prepared for many commercially available built-in speakers.

Robust BASIC quality in RAL 7016 Anthracite grey

Galvanised steel, stainless steel components, solid aluminium uprights and German manufacture result in a resilient mailbox system for long-term use at the property entrance.

Equipment of the BASIC 385P mailbox system

Mailbox system

Number of mailboxes 3 separately usable mail compartments
Mailbox dimension 300 × 110 × 385 mm (W × H × D) per compartment
Mail volume Approx. 12 litres per mailbox
Material Galvanised steel; side cladding and rain hood in stainless steel V2A
Finish RAL 7016 Anthracite grey fine-textured matt
Insertion slot 35 × 265 mm, suitable for DIN C4 portrait
Standard Mailboxes conforming to DIN EN 13724

Bell and intercom unit

Bell function housing Galvanised steel, likewise powder-coated to match
Position Integrated into the unit
Bell push-buttons 3 round stainless steel bell push-buttons Type 4
Speaker aperture With universal adapter for commercially available built-in speakers
Nameplate Indentation-resistant and impact-resistant design

Solid aluminium uprights

Uprights Solidly manufactured anodised aluminium profile
Coating Powder-coated in RAL 7016 Anthracite grey
Mounting options Either screw-mounted or set in concrete
Screw mounting Uprights available in 1200 or 1600 mm
Concreted-in Uprights available in 1600 or 2000 mm
Delivery condition Uprights and mailbox unit supplied split for installation
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Note on the bell/intercom unit

The universal adapter is suitable for many commercially available built-in speakers. Intercom system or built-in speakers, power supply and cabling are not part of the described basic equipment and must be provided to suit the planned system.

Mounting on a foundation

For screw mounting a level and sufficiently load-bearing foundation is required. Fixings must be chosen to suit the foundation, unit weight and the local installation situation.

Concreted?in installation

For the concreted-in version the extended aluminium uprights are anchored plumb in a suitably dimensioned concrete foundation. Foundation size and embedment depth must be matched to ground conditions, unit dimensions and local loads.

Note on weather protection

The rain hood, close-fitting side cladding and rain drainage channels support weather protection. Mail items must be fully inserted so that the insertion flaps can close completely. Under extreme weather conditions, slight moisture ingress may occur despite a standards-compliant design.

Product properties

Material	Steel, galvanised, Aluminium AlMg3 W19, Stainless steel V2A 1.4301
Series	BASIC
Number of bell push buttons	3 buttons
Functions	Light button, Intercom
Functional box prepared for manufacturer	GIRA, Busch Jaeger, Siedle, STR Elektronik, ELCOM, TCS, Ritto, ALGO, Telegärtner, Auerswald, Legrand Bticino, Comelit
Boxes by volume	Normal > 10 litres
Name labelling	Nameplate
Mounting type	Free-standing
Surface/colour	RAL 7016 anthracite grey
Removal of mail	On the front
Number of boxes	with 3 letterboxes
