Product number 215-STL-PK-2BK

Product description

Freestanding design parcel box GOETHE® with 2 mailboxes - sluice system - RAL colour of your choice

Parcel delivery has changed considerably in recent years – today customers expect more flexibility and security than ever before. With the GOETHE® parcel mailbox from Briefkasten Manufaktur you rely on an optimal combination of innovative technology and outstanding design, manufactured from high-quality stainless steel and aluminium.

The GOETHE® parcel mailbox features a specially designed delivery sluice. Once the courier places your parcel inside and the sluice closes, the parcel automatically falls into the locked retrieval compartment beneath. The delivery sluice is immediately ready for further deliveries after this process and is isolated from the retrieval compartment, guaranteeing the highest level of security for your parcels. A parcel box for easy parcel receipt, independent of the carrier! Any parcel carrier (e.g. DHL, DPD, TNT, GLS, Hermes, etc.) can use this parcel mailbox. The spacious interior of the GOETHE® parcel mailbox is designed to accommodate a DHL Paket M and even several smaller parcels. Depending on the placement of the DHL Paket size M, up to four such parcels can even be stored safely and conveniently.

The dimensions of the mailbox allow a capacity of approx. 32 litres; the large inlet also ensures that DIN C4 envelopes and magazines are not creased, even after several days away. The innovative Push-Key lock is concealed inside the mailbox. The key is simply inserted into the existing opening (no turning required) and the door opens. The arrangement of the lock means the mailbox is designed so that the retrieval door prevents mail from falling out towards you. Thanks to the water run-off edge, the internal mail is optimally protected from the weather. The flap is equipped with high-quality hinge dampers for quiet closing and prevents disturbing rattling caused by weather influences.

Briefkasten Manufaktur places particular emphasis on the selection of high-quality materials. The use of stainless steel in the production of the GOETHE® parcel mailbox ensures extremely high corrosion resistance and a strikingly attractive surface finish. Our quality assurance begins with the selection of our raw material suppliers and only ends when the parcel mailbox arrives with you in the required quality. Rely on the GOETHE® parcel mailbox for a secure, flexible and stylish solution to your parcel delivery needs. Be convinced by a product that combines traditional craftsmanship with state-of-the-art technology – in the spirit of Briefkasten Manufaktur.

Protected utility model according to DPMA file reference DE: 20 2021 101 679.5

- High-quality parcel mailbox made of stainless steel and aluminium, powder-coated in the RAL colour of your choice.
- Quality manufacture - Made in Germany by Briefkasten Manufaktur Lippe.
- Mailboxes (BH 400x200mm) made of stainless steel 1.4016 (corrosion-resistant magnetic stainless steel), powder-coated in RAL colour of your choice.
- Innovative Push-Key locks, each supplied with 2 keys.
- Insertion and retrieval are from the front. Inlet flap with high-quality hinge dampers for very quiet insertion of mail.
- The mailbox complies with DIN/EN 13724. Insertion size (3.5 cm x 36.0 cm) for C4 landscape; large letters fit in here without creasing.

- Parcel inlet flap with damping for quiet closing.
- Optimal protection from rain through rainwater runoff edges and a rain canopy made from 3 mm aluminium AlMg3 W19, powder-coated in RAL colour of your choice.
- Side cladding of 3 mm aluminium AlMg3 W19, powder-coated in RAL colour of your choice.
- Rear panel of 1 mm stainless steel 1.4301 V2A, powder-coated in RAL colour of your choice.
- Base made from 40x40x2 mm stainless steel tube 1.4301 V2A, powder-coated in RAL colour of your choice.
- Invisible fixing within the stand. The overall height is 1.65 m.

Important information

Water protection

To achieve optimal water protection for your mail, the mailbox or mailbox system should, where possible, be positioned under a canopy.

Mail is only protected from water if it is placed completely inside the box and the inlet flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the mailbox. This system is protected against water ingress according to DIN EN 13724. Water ingress is not grounds for complaint.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
