2-unit 1x2 freestanding mailbox system Design BASIC - Edition NELLY - Bi-colour VA-RAL 7016 anthracite grey | with 2 letterboxes (1x2)

Product number 384P-7016VA-2

Product description

2-unit Freestanding Mailbox System BASIC – Edition NELLY – 1 × 2 – Bi-colour Stainless Steel / RAL 7016 Anthracite Grey

"Everything begins with longing." – Nelly Sachs

The Edition NELLY combines the proven BASIC mailbox technology with a distinctly more individual appearance. The mailbox body is made of galvanised steel and receives a powder coating in RAL 7016 Anthracite Grey fine-textured matt, while the inlet flaps are stainless steel V2A 1.4301 with a 240-grit brushed finish. This deliberate bi-colour contrast appears modern and high-quality and can be combined with many front doors, windows and façades. As a freestanding version with 2 mailboxes (1 × 2), NELLY is not only intended for mail collection but also serves as a neatly designed component of the entrance area. The slim, flush-mounted frame and the writable rain hood make the unit an independent design element at the property entrance.

Key benefits of Edition NELLY

Rain hood becomes the NELLY labelling panel

The rain hood fulfils two functions in NELLY: it enhances weather protection and simultaneously serves as a striking labelling surface. Your individual laser engraving for house number and/or street name makes the freestanding unit clearly identifiable and personal already at the property entrance.

Bi-colour: RAL 7016 meets brushed stainless steel

The mailbox body made of galvanised steel is powder-coated in RAL 7016 Anthracite Grey fine-textured matt. The inlet flaps, by contrast, are stainless steel V2A 1.4301 with a 240-grit brushed finish. The rain hood and support posts are made of stainless steel V2A and powder-coated; the brushed inlet flaps provide the visible stainless-steel accent.

Large mail slot for DIN C4

The 35 × 325 mm inlet opening is designed for DIN C4 in landscape format. Larger letters can also be inserted without bending. The mailbox design complies with DIN EN 13724.

Quiet operation in everyday use

The brushed stainless-steel inlet flaps are equipped with a noise-damping rubber seal. A mail retention bracket supports controlled removal, while the doors open from left to right.

Solid stainless-steel support posts 20 × 100 mm

The freestanding NELLY unit is supported by slim yet solid posts made from 2 mm thick stainless steel V2A 1.4301. With a 20 × 100 mm cross-section and a powder-coated surface, the posts appear flush-mounted and elegant while forming a stable base for the entire unit.

Equipment and technical characteristics

Material and mailbox

Version 2 mailboxes (1 × 2)
Mailbox body Galvanised steel; RAL 7016 Anthracite Grey fine-textured matt
Inlet flaps Stainless steel V2A 1.4301, 240-grit brushed
Inlet opening 35 × 325 mm, DIN C4 landscape
Standard DIN EN 13724

NELLY design and operation

Labelling Individual laser engraving in BML Lasercut font
Nameplate Replaceable nameplate under the inlet flap
Mail retention bracket Integrated per mailbox
Mail retrieval From the front
Door opening From left to right
Locking system Depending on the chosen product configuration

Installation and construction

Installation type Freestanding
Support posts 20 × 100 mm, made from 2 mm stainless steel V2A 1.4301, powder-coated
Rain hood Stainless steel V2A, powder-coated and usable as a labelling surface
Mounting options For bolting or for setting in concrete
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Note on weather protection

When mail is fully inserted and the inlet flap is closed, items are protected as effectively as possible from moisture and dirt. Protruding items can prevent the flap from closing completely.

Note on stand installation
