3-unit freestanding mailbox system Design BASIC Plus 385XP ST-T - Stainless steel, RAL colour of your choice | 300x220x385 mm (WxHxD) - ???? Large 25 litres | BI-Color VA brushed | ? Colour of your choice | with 3 mailboxes (1x3)

Product number 385XP220-RALVA-3

Product description

Freestanding large-capacity mailbox system BASIC Plus 385XP ST-T Stainless Steel/RAL for 3 households – 25 litres

The freestanding BASIC Plus 385XP ST-T mailbox system for 3 households is an especially robust entry solution for two- and multi-family houses, office and practice buildings. Three separately usable mail compartments are combined into a clearly structured, durable overall system.

The mailboxes are made of stainless steel V2A and combine brushed stainless-steel accents with a high-quality powder coating in a RAL colour of your choice. The heart of the freestanding construction are the solid support posts made from anodised aluminium profile, also powder-coated. The sturdy aluminium substructure gives the system an exceptionally robust, torsionally rigid and at the same time modern appearance.

Each compartment measures 300 × 220 × 385 mm (W × H × D) and offers approx. 25 litres of volume. The 35 × 265 mm mail slot is designed for DIN C4 items in portrait orientation. A sound-dampening rubber lip on the mail flap, front access for mail retrieval, a robust lock and the interchangeable nameplate ensure comfortable everyday use.

The advantages of the BASIC Plus 385XP ST-T system at a glance

Solid anodised aluminium support posts

Solidly manufactured, anodised aluminium profiles form the particularly robust basis of the system. The powder-coated profile construction is designed for high stability and long-term outdoor use.

Robust multi-occupancy solution for 3 households

Three separate mailboxes are combined into a stable freestanding system. Each compartment remains clearly assigned to one user and is lockable separately.

Extra-large 25-litre mail compartments

The 300 × 220 × 385 mm compartments each offer approx. 25 litres of mail volume. The 35 × 265 mm mail slot accepts DIN C4-format items in portrait orientation.

Quiet insertion and robust locking technology

A rubber lip reduces impact noise on the mail flap. Robust locks, two keys per compartment and interchangeable nameplates are designed for daily use.

BASIC Plus in Stainless Steel/RAL

Brushed stainless-steel accents and a RAL powder coating combine a high-quality bi-colour appearance with the solid aluminium substructure and the modular BASIC Plus construction.

Equipment of the BASIC Plus 385XP ST-T mailbox system

Mailbox system

Number of mailboxes 3 separately lockable mail compartments
Single compartment 300 × 220 × 385 mm (W × H × D)
Mail volume Approx. 25 litres per mailbox
Mailbox material Stainless steel V2A, stainless steel/RAL bi-colour finish
Mail slot 35 × 265 mm, suitable for DIN C4 portrait
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Mail and additional functions

Mail flaps With sound-dampening rubber lip
Mail retrieval Front access
Keys 2 keys with key number per mailbox
Nameplate Solid interchangeable nameplate
Rain canopy Tight-fitting, robust design
Rain drainage Integrated drainage channels for improved water protection

Solid aluminium support posts

Support posts Solid anodised aluminium profile, powder-coated
Construction Designed to be particularly robust and load-bearing
Finish RAL colour matching the mailbox system
Installation Freestanding installation on a suitable foundation
Side cladding Tight-fitting design
BASIC Plus Modular, maintenance-friendly and designed for installation

Foundation and secure installation

The solid aluminium support posts require a level and sufficiently load-bearing substrate or an appropriately dimensioned concrete foundation. Foundation size, anchoring and alignment must be matched to the system's weight, size, ground conditions and local loads.

Note on weather protection

The rain canopy, tight-fitting side cladding and drainage channels support weather protection. Mail must be fully inserted so that the mail flaps can close completely.

BASIC Plus – robust and modular

The BASIC Plus construction relies on stainless steel V2A and solid aluminium profiles. The modular design simplifies installation and the later replacement of individual components and is designed for a long service life.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), Brushed, RAL 9007 grey aluminium, RAL 9016 traffic white
Series	BASIC
Name labelling	Nameplate
Material	Aluminium AlMg3 W19, Stainless steel V2A 1.4301
Mounting type	Free-standing
Removal of mail	On the front
Boxes by volume	Large > 16 litres
Number of boxes	with 3 letterboxes
