Designer freestanding mailbox GOETHE ST-Q with newspaper compartment - RAL colour of your choice - GIRA System 106 - VIDEO complete set

Product number 215-STQ-1-SP-ZF-KSGI106

Product description

Design freestanding letterbox GOETHE ST-Q with newspaper compartment - RAL colour of your choice - GIRA System 106 - VIDEO complete kit

High-quality freestanding letterbox with newspaper compartment and seamlessly integrated Gira System 106 in a flush-mounted design. The modern GOETHE letterbox is ideal for an upscale entrance area. The straight-lined form without a visible lock gives this letterbox a particularly elegant appearance. 3 GIRA System modules are included so the letterbox can be put into service immediately. The matching GIRA apartment station and the control unit to complete this letterbox are included. The modules can be subsequently exchanged at will using the simple retention system.

The dimensions of the single box provide a capacity of approx. 16 litres; the large aperture guarantees that C4 envelopes and magazines, or post accumulated during several days away, will not be creased. The innovative Push-Key lock is concealed invisibly inside the letterbox. The key is simply inserted into the existing opening (no turning required) and the door opens. The arrangement of the lock is designed so that the collection door prevents your post from falling out towards you. The internal post is optimally protected from the weather by the water runoff edge. The flap is equipped with high-quality axle dampers, ensuring quiet closure and preventing annoying rattling caused by weather influences.

The GOETHE letterbox systems are characterised by the consistent use of stainless steel and aluminium. The result is very high durability and sustainability. The construction has been developed by our own engineers with a view to high flexibility/modularity, simple spare-part assembly and uncomplicated self-assembly. Spare parts for all GOETHE systems are available directly in our shop.

Thanks to the design, self-assembly is straightforward.

Protected utility model according to DPMA file number DE: 20 2021 101 679.5

- Freestanding letterbox made of stainless steel and aluminium.
- Quality manufacture - Made in Germany by Briefkasten Manufaktur Lippe.
- Letterbox (H x W 400 x 400 mm) made of stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in RAL colour of your choice.
- Innovative Push-Key lock with 2 keys.
- Letter insertion and collection are from the front. Insertion flap with high-quality axle dampers for very quiet posting.
- The letterbox complies with DIN/EN 13724. Insertion size (3.5 cm x 36.0 cm) for C4 placed landscape, so large letters fit in without bending.
- Collection door opens from top to bottom. This prevents your post from falling out towards you.
- Newspaper compartment (H x W 400 x 200 mm) made of stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in RAL colour of your choice with stainless steel laser engraving "ZEITUNG" (font ARIAL; if name/house number is chosen, it will be in your selected font).
- Newspaper compartment opens from bottom to top.
- Function compartment (H x W 400 x 200 mm) made of stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in RAL colour of your choice.
- Nameplate made of stainless steel, powder-coated in the selected RAL colour. Your name and/or a bell will optionally be laser-engraved on the nameplate.
- Optional with house number, laser-engraved (a name inscription can also be stored here).
- Optimal protection from rain thanks to rainwater runoff edges and a rain hood made of 3 mm aluminium AlMg3 W19, powder-coated in RAL colour of your choice.
- Side panels made of 3 mm aluminium AlMg3 W19, powder-coated in RAL colour of your choice.
- Rear panel made of 1 mm stainless steel V2A 1.4301, powder-coated in RAL colour of your choice.
- Width 40 mm x Depth 80 mm support posts consist of 2 mm stainless steel V2A 1.4301, powder-coated in RAL colour for embedding in concrete or for bolted mounting. Invisible cable routing through the support posts.
- Incl. GIRA apartment station & control unit included, System 106 door station module, info module & camera module installed.

GIRA

Camera module Gira System 106 - 5561 000, installed without cabling

- Behind the replaceable black glass pane is a high-quality camera with high light sensitivity. Thanks to a field of view of 100° the user is always informed about what is happening at their front door.

Info module Gira System 106 - 5560 920, installed

- For house numbers that should be displayed clearly.

Door station module Gira System 106 - 5565 920, installed without cabling

- Compact audio module with integrated call button for communication between inside and outside.
- A high-quality microphone and a weatherproof speaker ensure good intelligibility.
- Power supply via 2-wire bus. Additional connection for ZV (e.g. required from the 3rd camera module onwards).
- All other System 106 modules (except the audio module) are supplied with power via the door station module.

Apartment station Gira Video AP 7 1209xx, included

- Video apartment station with a 17.78 cm (7") TFT colour display and convenient hands-free function for surface mounting or wall mounting with a flush-mounted device box or cavity wall box. With the optional stand (see Accessories) also suitable for placement on furniture. A 32 GB SD memory card is included for internal image storage. Full-surface glass front with touch functionality and tactile feedback.

Video control unit REG Gira 128800, included

- Control unit for supplying the audio and video components of the Gira door communication bus.
- Supply of the polarity-proof and short-circuit-proof 2-wire bus when using video components such as colour camera, TFT colour display.
- Up to 2 door stations with colour camera and 28 apartment stations with TFT colour display can be supplied via the Video control unit.
- In total up to 15 colour cameras can be controlled by the Video control unit (5 video door stations and 10 TKS camera gateways), of which two door stations with colour camera can be powered by the Video control unit. The other colour cameras must each be operated with their own power supply for door communication.
- Self-resetting electronic short-circuit and overload detection of the operating voltages and the bus connection.
- Buttons for system and door opener programming.
- LED status indicators for operation, overload, system programming and door opener programming.
- AC 12 V output for supplying power to a standard door opener.
- Relay output for switching a door opener with its own power supply.
- Door opener switching time continuously adjustable from 1 to 10 s.

Important information

Camera or intercom preparation

The intercom systems must be connected by an electrician. For planning, installation and commissioning, please contact the electrician of your choice.

Water protection

To achieve optimal protection of your post from water, the letterbox or letterbox system should, if possible, be located under a canopy.

Mail is only protected from water if it is placed completely inside the box and the insertion flap is closed. Post that is not fully pushed in allows moisture and dirt to enter the letterbox. This system is protected against ingress of water according to DIN EN 13724. Water ingress is not a reason for complaint.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
Series	GOETHE
Connection technology	2-wire
Number of bell push buttons	1 button
Functions	Camera, Intercom
Functional box prepared for manufacturer	GIRA
Material	Aluminium AlMg3 W19, Stainless steel V2A 1.4301, Stainless steel 1.4016 (non-rusting magnetic stainless steel)
