Product description

Module with add-on socket - Mennekes 1668 - CEE 16A 3p 230V

The modular socket module is the ideal addition to modular socket columns and enables a flexible, demand-oriented configuration of power distribution. It was specially designed for use in ORDO socket columns.

The socket module is designed for simple installation. It is inserted into the designated module slot of the socket column and securely fixed there. The well thought-out construction allows for quick replacement of individual modules, reducing downtime and enabling efficient extensions.
