BASIC column with 6 mailboxes, parcel box and LED lighting – choice of RAL colour

Product number BML3D-4PHSR16MDD

Product description

Mailbox system with parcel reception and LED lighting – thoughtful design for your entrance

The BASIC Horizontal system from Briefkasten Manufaktur welcomes you and your visitors with a clean, uncluttered design. Its modular construction brings your chosen functions together in a clearly arranged solution that can be tailored to your everyday needs. The BASIC series offers mailboxes, accessory boxes and functional boxes that can be combined in a variety of ways for a coordinated entrance area. The system is designed for column mounting and provides 6 mailboxes for daily post. An integrated parcel box accommodates parcel deliveries.

The system is finished in your choice of RAL colour and has overall dimensions of W 383 × H 1472 × D 430 mm.

Select “Configure now” to open this exact configuration in the 3D configurator. You can then customise the system further and place your order.

Individually configurable

Design your mailbox system to suit your home: select “Configure now” to tailor this configuration to your requirements.

- Support posts in the right length: choose from the post lengths available for your installation. The length shown can be adjusted.
- Box finish: customise the colour in the 3D configurator using the colours available for this version.
- Personalised lettering: add your own names, house numbers or wording to the designated areas. Any lettering shown is an example and can be replaced.
- Lettering style: choose from the available lettering fonts and adjust the appearance in the configurator.
- Backlit lettering can be configured on the designated areas of this system.
- Equipment: add or change components compatible with the system from the selection available.

When you make individual changes, the dimensions and price are recalculated in the 3D configurator to reflect your selection.

Robust cladding and carefully designed weather protection

The rain canopy made from V2A 1.4301 stainless steel enhances the built-in weather protection: it shields the top and helps keep rain away from the front.

The side cladding made from V2A 1.4301 stainless steel protects the sides and gives the system a robust, visually seamless finish.

Extra space for parcels, newspapers and more

This compartment serves as a parcel box, complementing mail reception by accepting parcels even when you are not at home. The selected BASIC series parcel lock with T-handle allows deliveries without giving the courier a key. Use your key to release the compartment for a single delivery. The courier opens the released compartment, places the parcel inside, closes the door and pushes the lock in to secure it. To collect your parcel, open the compartment with your key and then release it again for the next delivery. Until you do so, it is not available for further keyless deliveries. The external box dimensions are 370 × 550 × 385 mm (W × H × D). The clear door opening and usable internal dimensions determine which parcel sizes will fit; the external dimensions do not indicate the maximum parcel size. Please check the parcel size against the compartment’s internal dimensions beforehand.

Materials and workmanship

Base material: V2A 1.4301 stainless steel. The V2A stainless steel provides a corrosion-resistant, durable foundation for your entrance area.

The powder-coated surface is finished in your choice of RAL colour. Select your preferred colour in the 3D configurator.

Mailbox and ease of use

Mailbox 370 × 110 × 385 mm: includes a rain drainage edge for optimum protection against water, a continuous rubber lip for quiet mail delivery, a sturdy replaceable nameplate and a highly robust lock. The height of the mail slot and the narrowing of the chute help protect your post against unauthorised removal.

Equipment

BASIC plastic nameplate, type 2: nameplate made from crystal-clear polycarbonate. The insert can be replaced from the front.

Features of this mailbox system

- Product range: BASIC Horizontal
- Mounting: column
- Finish: choice of RAL colour
- Overall dimensions: W 383 × H 1472 × D 430 mm
- 6 mailboxes, 1 functional box, 1 accessory box
- Box finish: choice of RAL colour
- Fixing method: bolt-down posts
- Base material: V2A 1.4301 stainless steel. Finish: powder coating or brushed stainless steel

Important information:

Water protection: a sheltered location, preferably beneath a canopy, helps protect your post. Mail should be inserted fully and the mail flap should be closed.

Installation: the selected system requires a suitable load-bearing base. Follow the installation instructions and take the configured fixing method into account.
