Product number 385XA220-RALVA-8

Product description

Surface-mounted mailbox system BASIC Plus 385XA 220 for 8 apartments – 25 litres per compartment – BI-Colour RAL / stainless steel

The BASIC Plus 385XA surface-mounted mailbox system for 8 apartments is a robust wall solution for multi-family houses, residential complexes and commercial properties. The balanced arrangement groups all mailboxes into a clearly structured and visually continuous wall unit.

The BASIC Plus BI-Colour version combines powder-coated stainless steel V2A in a RAL colour of your choice with brushed stainless-steel accents. This creates an individual, high-quality material combination for modern façades.

Each compartment measures 300 × 220 × 385 mm (W × H × D) and offers approx. 25 litres of volume. The 35 × 265 mm aperture is designed for DIN C4 items in portrait orientation. The doors open from left to right; each mailbox is supplied with two keys with key number and an interchangeable nameplate beneath the mail flap.

Advantages of the BASIC Plus 385XA 220 surface-mounted system at a glance

Rain canopy and side cladding

The rain canopy and side panels unite the individual mailboxes into a single surface-mounted unit. The coordinated cladding provides a calm front and a neat finish to the façade.

25 litres mail volume per compartment

The 300 × 220 × 385 mm (W × H × D) compartments each offer approx. 25 litres of volume. The 35 × 265 mm aperture also accepts larger DIN C4 items in portrait orientation.

Quiet posting and secure allocation

The rubber lip dampens the mail flap. Robust locks, two keys with key number and protected interchangeable nameplates ensure clear assignment of the individual compartments.

Mounting rail for wall installation

The surface-mounted system is designed for direct façade installation. A mounting rail facilitates installation; fixings including screws and wall plugs are included with the described version.

BI-Colour with RAL and stainless steel

The combination of a RAL powder coating of your choice and brushed stainless-steel accents creates deliberate contrasts and emphasises the high-quality BASIC Plus design. BASIC Plus additionally stands for consistent use of V2A stainless steel, modular construction and directly available spare parts.

Specification of the BASIC Plus 385XA 220 mailbox system

Mailbox system

Number of mailboxes 8 separately lockable compartments
Single compartment 300 × 220 × 385 mm (W × H × D)
Volume Approx. 25 litres per mailbox
Material Stainless steel V2A in BI-Colour version: RAL powder coating with brushed stainless-steel accents
Finish BI-Colour: RAL colour of your choice / brushed stainless steel V2A
Standard DIN EN 13724

Mail and operation

Mail removal From the front
Door opening From left to right
Keys 2 keys with key number per mailbox
Nameplate Interchangeable nameplate beneath the mail flap

Cladding and wall installation

Side cladding Close-fitting design
Rain canopy Robust design matched to the unit
Type of installation Surface-mounted wall installation
Installation aid Mounting rail
BASIC Plus Modular construction with directly available spare parts
Fixings Screws and wall plugs included; suitability for on-site wall construction must be checked
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Note on wall installation

The wall must be even and sufficiently load-bearing. The supplied screws and wall plugs should only be used if they are suitable for the existing wall structure; for other substrates or external wall insulation systems, appropriate fixing solutions must be determined on site.

Note on weather protection

Mail is best protected from moisture and dirt only when items are fully inserted and the flap is closed. Protruding letters or magazines can prevent the flap from closing completely.

BASIC Plus construction

The BASIC Plus series consistently uses V2A stainless steel and a modular, installation-friendly construction. Spare parts for BASIC Plus systems are directly available.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), Brushed, RAL 9007 grey aluminium, RAL 9016 traffic white
Series	BASIC
