Product number 215-STL-PK600-1BK-SPR-GI106KS

Product description

Freestanding XXL parcel box GOETHE with 1 letterbox and GIRA System 106 - video intercom right-hand - sluice system - RAL colour of your choice

Parcel delivery has changed significantly in recent years – today customers expect more flexibility and security than ever before. With the **GOETHE parcel mailbox** from Briefkasten Manufaktur you rely on an ideal combination of innovative technology and outstanding design, manufactured from high-quality stainless steel and aluminium, powder-coated in the colour of your choice. Integrated is the **GIRA System 106**, whose modular design provides a particularly flexible and future-proof solution for your entrance. Three GIRA system modules are already included in the scope of delivery, so the mailbox is ready for immediate use. The appropriate GIRA apartment station and the necessary control unit are also included to complete the system. Thanks to the simple mounting system, the modules can be exchanged or expanded at any time without great effort.

The **letterbox** (H x W 400 x 400 mm) is made of stainless steel 1.4016 (non-rusting, magnetic stainless steel), powder-coated in an RAL shade of your choice. It is equipped with an innovative push-key lock that is keyed alike with the parcel box and supplied with ten keys. Letter insertion and retrieval are from the front. The insertion flap is fitted with high-quality axle dampers, allowing letters to be inserted particularly quietly. The letterbox complies with **DIN/EN 13724** with an insertion size of 3.5 x 36.0 cm – sufficient for C4 envelopes in landscape format without bending. The retrieval door opens downwards, so your post cannot fall out towards you. The dimensions of the letterbox provide a capacity of approx. 64 litres. The innovative push-key lock is discreetly concealed inside: the key is simply inserted – without turning – and the door opens.

The generous **parcel box** (H x W 600 x 1200 mm) is likewise made of stainless steel 1.4016, powder-coated in the RAL colour of your choice. It offers a volume of 192 litres and allows the delivery of parcels up to a size of 555 x 375 x 305 mm (W x H x D), corresponding to DHL parcel size L. The parcel insertion flap is damped and closes particularly quietly. Thanks to the specially developed delivery sluice, your parcel is automatically transported into the secured retrieval compartment after insertion. The sluice is immediately ready for further deliveries and remains isolated from the retrieval compartment – ensuring your consignments are optimally protected at all times. Any delivery service (e.g. DHL, DPD, TNT, GLS, Hermes) can use the parcel mailbox. Depending on placement, up to four DHL parcels of size M can even fit inside.

Briefkasten Manufaktur places the utmost importance on high-quality materials. Stainless steel provides extremely high corrosion resistance and an elegant surface finish. Quality assurance begins with the selection of our raw material suppliers and only ends when the parcel mailbox reaches you in the required quality. Trust the **GOETHE parcel mailbox** – a secure, flexible and stylish solution for your mail and parcel deliveries. A product that combines traditional craftsmanship with the latest technology – Made in Germany by Briefkasten Manufaktur Lippe.

- High-quality parcel mailbox made of stainless steel and aluminium, powder-coated in the colour of your choice.
- Quality manufacture - Made in Germany by Briefkasten Manufaktur Lippe.
- Letterbox (H x W 400 x 400 mm) made of stainless steel 1.4016 (non-rusting, magnetic stainless steel), powder-coated in RAL of your choice with stainless steel laser-engraved pictogram "BRIEF".
- 2 innovative push-key locks with 10 keys, keyed alike.
- Letter insertion and retrieval are from the front. Insertion flap with high-quality axle dampers for very quiet insertion of post.
- The letterbox complies with DIN/EN 13724. Insertion size (3.5 cm x 36.0 cm) for C4 landscape – large letters fit without bending.
- Retrieval door opens downwards. This prevents your post from falling out towards you.
- Parcel box (H x W 600 x 1200 mm) made of stainless steel 1.4016 (non-rusting, magnetic stainless steel), powder-coated in RAL of your choice with stainless steel laser-engraved pictogram "PAKET".
- Parcel compartment volume: 192 litres, Max. parcel dimensions: 555 x 375 x 305 mm (W x H x D), corresponding to parcel size L.
- Parcel insertion flap with damping for quiet closing.
- Function box (H x W 200 x 400 mm) made of stainless steel 1.4016 (non-rusting, magnetic stainless steel), powder-coated in RAL of your choice.
- Including GIRA apartment station & control unit supplied, System 106 door station module, info module & camera module installed.
- Optimal protection from the weather thanks to rain runoff edges and a rain canopy made of 3 mm aluminium AlMg3 W19, powder-coated in RAL of your choice.
- Side cladding made of 3 mm aluminium AlMg3 W19, powder-coated in RAL of your choice.
- Rear panel made of 1 mm stainless steel 1.4301 V2A, powder-coated in RAL of your choice.
- Base made of 40 x 40 x 2 mm stainless steel tube 1.4301 V2A, powder-coated in RAL of your choice.
- Invisible fastening and cable routing within the pedestal. The overall height is 1.65 m.

GIRA

Camera module Gira System 106 - 5561 000

- Behind the interchangeable black glass panel is a high-quality camera with high light sensitivity. With a detection angle of 100°, the user is always informed about what is happening at their front door.

Info module Gira System 106 - 5560 920

- For house numbers that should be displayed prominently.

Door station module Gira System 106 - 5565 920

- Compact voice module with integrated call button for communication between inside and outside.
- A high-quality microphone and a weatherproof loudspeaker ensure good intelligibility.
- Power supply via 2-wire bus. Additional connection for ZV (e.g. necessary from the 3rd camera module).
- All other System 106 modules (except the voice module) are supplied with power via the door station module.

Apartment station Gira Video AP 7 1209xx

- Video apartment station with a 17.78 cm (7") TFT colour display and convenient hands-free function for surface mounting or wall mounting with flush-mounted device box or hollow-wall box. With the optional stand (see Accessories) also suitable for placement on furniture. A 32 GB SD memory card is included for internal image storage. Full-surface glass front with touch functionality and tactile feedback.

Control unit Video REG Gira 128800

- Control unit for powering the audio and video components of the Gira door communication bus.
- Supplies the polarity-proof and short-circuit-resistant 2-wire bus when video components such as colour camera and TFT colour display are used.
- Up to 2 door stations with colour camera and 28 apartment stations with TFT colour display can be supplied via the video control unit.
- In total, up to 15 colour cameras can be controlled by the video control unit (5 video door stations and 10 TKS camera gateways), of which two door stations with colour camera can be powered by the video control unit. The additional colour cameras must each be operated with their own power supply for door communication.
- Self-resetting electronic short-circuit and overload detection for the operating voltages and the bus connection.
- Buttons for system and door-opener programming.
- LED status indicators for operation, overload, system programming and door-opener programming.
- AC 12 V output for powering a conventional door opener.
- Relay output for switching a door opener with its own power supply.
- Door opener switching time continuously adjustable from 1 to 10 s.

Important information

Water protection

To achieve optimal water protection for your post, the letterbox or mailbox system should, if possible, be located under a canopy.

Postal items are only protected from water if they are placed completely inside the box and the insertion flap is closed. Post that is not fully pushed in allows moisture and dirt to enter the letterbox. This unit is protected against water ingress according to DIN EN 13724. Water ingress is not a reason for complaint.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
Series	GOETHE
Connection technology	2-wire
Number of bell push buttons	1 button
Functions	Newspaper compartment, Camera, Intercom, Parcel compartment
Functional box prepared for manufacturer	GIRA
Number of boxes	with 1 parcel box, with 1 letterbox
Material	Aluminium AlMg3 W19, Stainless steel V2A 1.4301, Stainless steel 1.4016 (non-rusting magnetic stainless steel)
Mounting type	Free-standing
House number	House number as laser engraving
Name labelling	Laser-engraved
Removal of mail	On the front
Boxes by volume	Jumbo > 30 litres
