Designer through-wall mailbox GOETHE MDW - RAL colour of your choice - COMELIT Ultra - Video set | 390-560mm depth

Product number 215-MDW-1-SP-KSCSWIFIU-560

Product description

Design through-wall letterbox GOETHE MDW - RAL of your choice - COMELIT Ultra - VIDEO set

The modern GOETHE through-wall letterbox with bell-intercom unit is ideal for a high-quality entrance area. Its clean, linear design gives the letterbox an especially elegant appearance. Thanks to the variable shaft length of 300 mm to 390 mm or 390 mm to 560 mm, this letterbox can be used in nearly any masonry. Discover the fully integrated Comelit Ultra, a high-end solution in the world of video intercoms. This state-of-the-art system offers advanced features, including facial recognition, voice control and convenient operation via smartphone app.

The dimensions of the individual compartments allow a capacity of approx. 24–44 litres; the large aperture ensures that DIN C4 envelopes and magazines, or mail accumulated during several days’ absence, are not creased. The drip edge protects the internal mail optimally from the weather. The flap is fitted with high-quality pivot dampers, guaranteeing quiet closing and preventing annoying rattling due to weather conditions.

The letterbox systems of the GOETHE collection are characterised by the consistent use of stainless steel. The result is very high durability and sustainability. The construction was developed by our own engineers with a view to high flexibility and modularity, easy spare-part assembly and straightforward self-installation. Spare parts for all GOETHE systems are available directly in our shop.

Thanks to the construction design, self-installation is uncomplicated.

Protected utility model according to DPMA file number DE: 20 2021 101 679.5

- Letters are inserted and retrieved from the front. Flap fitted with high-quality pivot dampers for very quiet mail insertion.
- Retrieval door opens from top to bottom, preventing the mail from falling out towards you.
- Function box (W x H 400 x 200 mm) made from stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in a RAL colour of your choice.
- 8-12 V DC short-stroke doorbell push button with white LED ring illumination.
- Optional name inscription approx. 10–20 mm high.
- Optional house number inscription approx. 60–80 mm high.
- Plaster cover frame made from stainless steel angle profile 25 x 58 mm, powder-coated in a RAL colour.
- Variable shaft length 300-390 mm or 390-560 mm. External dimensions of letter-through shaft W 380 mm x H 180 mm.
- External dimensions front W 450 mm x H 450 mm; rear W 450 mm x H 250 mm.

Important information:

Camera or intercom provision

Intercom systems must be connected by a qualified electrician. For planning, fitting and installation, please contact the electrician of your choice.

Water protection

To achieve optimal protection of your mail from water, the letterbox or letterbox system should, if possible, be located beneath a canopy.

Mail is only protected from water if it is placed completely inside the box and the flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the letterbox. This system is protected against ingress of water according to DIN EN 13724. Water ingress is not a reason for complaint.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
Series	GOETHE
Connection technology	2-wire, LAN
Number of bell push buttons	1 button
Functions	Camera, Intercom
Functional box prepared for manufacturer	Comelit
