Product number 562-UP-SPR-1-SF-LOX1

Product description

Design Letterbox GRIMM® – A Masterpiece of the Letterbox Manufacture

The design recessed letterbox GRIMM combines modern design with first-class craftsmanship – ideal for discerning builders and architects seeking an elegant solution for integrating the LOXONE intercom. Made from high-quality stainless steel and fully “Made in Germany” by the Letterbox Manufacture Lippe, this model stands for durability, functionality, and stylish appearance. The powder-coated front flap made from 2 mm stainless steel V2A (1.4301) impresses with a timeless appearance and high corrosion resistance. The flush design allows for seamless integration of up to two LOXONE system modules (not included) via a thoughtfully designed mounting system. It is prepared for one LOXONE intercom (including opening for sound emission).

The letterbox GRIMM® is not only an optical highlight but also leads in functionality and quality. Thanks to the innovative push-key lock, the letterbox can be easily and comfortably operated with one hand. Open the door with a push and close it without the use of a key. The lock is optimally protected against weather influences. Additionally, the letterbox features an intelligent retrieval system: the door opens from top to bottom, ensuring that the mail remains securely inside and cannot fall out. The mail can also be comfortably inserted from the front, with high-quality axle dampers ensuring a gentle closing of the mail flap. The GRIMM is uniquely special due to its double box system: the installation box can be installed during the shell construction phase, while the front flap is only mounted after construction work is complete – for maximum flexibility in the future and protection from dirt and dust during the construction phase. The installation box is made from stainless steel 1.4016 and features pre-punched cable inlets on all sides to facilitate easy electrical installation.

Thanks to the DIN/EN 13724 standard, the GRIMM is ideal for large letters in C4 format, which can be inserted without creases. The letterbox GRIMM® impresses with its durable quality, timeless design, and thoughtful functionality.

- High-quality letterbox entirely made of stainless steel for recessed installation.
- Front flap made from 2 mm stainless steel V2A 1.4301, powder-coated in the desired colour.
- Quality manufacturing – Made in Germany by Letterbox Manufacture Lippe.
- The LOXONE intercom can be seamlessly integrated into the flush design and replaced at any time. The preparation is for one LOXONE intercom (including opening for sound emission). WITHOUT LOXONE intercom/system components!
- Innovative push-key lock including 2 keys with key number, comfortable closing without a key, optimally protected from weather.
- The retrieval door with opening restrictor opens from top to bottom to prevent mail from falling out.
- Front insertion with high-quality axle dampers for very quiet mail insertion.
- DIN/EN 13724 compliant letterbox, insertion size (3.5 cm x 32.5 cm) for C4 landscape – large letters remain intact. Additional retrieval protection made of stainless steel integrated.
- Optimal weather protection through the recessed flap.
- Double box system: Ideal for recessed installation. The flap can be conveniently installed after the completion of construction work.
- Installation box made from stainless steel 1.4016 (non-rusting, magnetic stainless steel) with pre-punched cable inlets on all sides.

Important Information:

To achieve optimal water protection for your mail, the letterbox or letterbox system should ideally be located under a canopy.

Mail is only protected from water if it is completely placed in the box and the mail flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the letterbox. This system is protected against water ingress according to DIN EN 13724. Water ingress is not a reason for complaint.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
Series	GRIMM
Functions	Camera, Intercom, Fingerprint, Keypad
Functional box prepared for manufacturer	LOXONE
Material	Stainless steel V2A 1.4301, Stainless steel 1.4016 (non-rusting magnetic stainless steel)
House number	House number as laser engraving
Name labelling	Laser-engraved
Removal of mail	On the front
Number of boxes	with 1 letterbox
Boxes by volume	Large > 16 litres
Mounting type	Flush-mounted
